

**Oxygen Medical Airway Management Bag with Reflective Trim,
Zippered Pockets & Shoulder Straps - SKU: 50100-G**

- Heavy duty zipper's
- Triple reflective trip (silver & white)
- Includes shoulder strap

DESCRIPTION:

The most popular EMS oxygen medical airway management bag in the industry by LINE2design, offers a full-length net pocket inside the padded lid which holds all of your EMS accessories. The main padded compartment holds a "D" or "Jumbo D" oxygen tank. The LINE2design medical oxygen bag is a rugged padded oxygen bag built to be used by professionals. It features a zippered pocket on both ends and a soft internal removable-adjustable divider, with heavy duty hook and loop to keep the dividers in place. The standard oxygen bag has reflective material on three sides of the bag. One side of the standard oxygen bag is black with word oxygen in white bold letters. The bag comes complete with a removable shoulder strap.
