## DESCRIPTION:

The All Impervious Deluxe Oxygen Medical Bag is exclusively constructed by LINE2design using the strongest and most durable fabric of any oxygen carrying system available. The Deluxe Oxygen bag was designed by paramedics, so it is the most user-friendly oxygen carrying bag on the market today. It includes mesh pockets, a large main compartment, and various smaller pockets throughout to fit adjuncts and accessories. The Deluxe EMS Oxygen bag makes it convenient to store, organize and carry all essential oxygen therapy supplies and accessories. The bag comes complete with shoulder straps, reflective striping, and black impervious bottom with padding.
