CUSTOM FEATURES:

- The frame is welded together at all attachment points for increased strength and durability
- Built with international standard aluminum grade metal with increased metal wall thickness
- Only stainless steel hardware used on all chairs to limit rust and corrosion
- Finished with an environmentally friendly paint that enhances the brightness and reduces fading and cracking
- The crawler-track system is a one-step molding technology with thicker teeth
- The over-all length of our track system is 82 cm and the bracket is 30mm to 40mm, this ensures the chair will cover more surface area to reduce slipping
