

# OROBOOST®

## TECHNICAL BULLETIN

### ORGANIC ADJUVANT FOR FOLIAR APPLICATION ON GRAPES

(Wine, Juice, Raisin)

**To avoid potential crop injury it is recommended to use OROBOOST® at a rate of no more than 32 ounces per acre.**

- *OROBOOST* is an adjuvant approved for use in conventional and organically produced crops that will increase coverage, spreading, and penetration of the applied spray mix.
- Use sufficient water volume to ensure complete coverage of foliage and fruit.
- *OROBOOST* should be added last to the spray tank.
- Use caution when combining in tank mixes with EC product formulations, copper, and or Chlorpyrifos on sensitive crops.
- Contact your PCA for a recommendation on how best to utilize *OROBOOST* in your pest control efforts.

*OROBOOST* is a registered trademark of ORO AGRI, Inc. For additional information contact your ORO AGRI Representative or PCA.
