

Hi Quilting Friend!

This guide has instructions on how to make a 1-clover block.

However, during our Quilting your Legacy Table Topper class, we will be making 4-clover blocks to create one table topper.

Our Sewing Guide will guide you through creating a beautiful and elegant table topper, regardless of your level of quilting experience. With our tips and techniques, you will be able to unleash your creativity and make something truly special.

"Love You Clover", exclusively designed by me, your quilting friend Emily. You can create a single block or combine 4 blocks to make a beautiful Table Topper. Or, if you're feeling adventurous, you can even turn the clover blocks into a full quilt!

What to do first:

- Step 1) Read the pattern provided entirely
- Step 2) Cut out your fabrics using the Sewing Guide
- Step 3) ~~Wait until March 3rd at 10 am to sew the Love You Clover Table Topper together.~~

Emily@NortonHouseQuilting.com

During the class, we will be making 4-clover blocks to create a single table topper.

I just wanted to remind you that you are loved and talented. Your quilted projects hold immense value for the world and you are truly exceptional! It brings me great pleasure to join you in your journey of quilting your legacy.

We will be sewing together soon on ~~Sunday, the 3rd at 10 am Eastern Time.~~

- Emily

Gather your Fabrics:

In the **fabric kit**, you'll find **8 different green clover-themed fabrics**. You'll **pair up these fabrics to create 4 Clover Blocks** with an off-white background fabric.

For each Clover Block, **choose two different green fabrics which in this Sewing Guide I've labeled A and B**, and use an off-white fabric as the background color.

To start, as homework, you'll pair your two Clover Green fabrics together to create one Clover Block. Repeat this process five times to have five Clover Blocks ready for sewing. Because in class we're going to be sewing 4-Clover Blocks together to complete the Table Topper.

👉 How to Cut your Fabrics to create FOUR Clover Blocks:

🌀 **Start by pairing your preferred green fabrics together** to create a Clover Block. Once you have decided on the best-matched green fabrics, **divide them into two separate piles** for Clover Fabric Block A and Clover Fabric Block B.

Clover Fabric A:

- 4 - 5 1/2" x 4 1/2"
- 4 - 5" x 5"
- 1 - 1" x 7 1/2" strip (for the stem)

Clover Fabric B:

- 4 - 5 1/2" x 4 1/2"
- 4 - 5" x 5"
- 1 - 1" x 7 1/2" strip (for the stem)

* Use your Scraps: You need 8 each of 5 1/2" x 4 1/2", 5" x 10", and 4-1" x 7 1/2" Green Clover fabrics.

Background Fabric:

- 48 - 2" x 2" squares
- 8 - 3" x 5"

* Use your Scraps: You need 48 - 2"x2" square and 8 - 3" x 5" Background fabrics.

👉 How to Cut your Fabrics to create ONE Clover Block:

Clover Fabric A:

- 2 - 5 1/2" x 4 1/2"
- 2 - 5" x 5"
- 1 - 1" x 7 1/2" strip (for the stem)

Clover Fabric B:

- 2 - 5" x 10"
- 2 - 5" x 5"
- 1 - 1" x 7 1/2" strip (for the stem)

Background Fabric:

- 12 - 2" x 2" square
- 2 - 3" x 5"

In this Sewing Guide, we'll be sewing the Clover Block together in a detailed step-by-step manner. By following our instructions, you will be able to master this sewing technique with ease and create a stunning finished product.

👉 How to sew:

We'll use the Flip-Stitch Method on the 2" background squares located on the Clover Green fabric corners.

How to Sew the Flip-Stitch Method:

First, draw the line on the wrong side of the fabric. Then, place the fabric in the corner of another piece of fabric, ensuring the right sides face each other. Next, sew along the drawn line, and trim 1/4 inch away from the sewing line. Finally, press the stitch upward to “flip up” the stitch.

✂️ How to sew one Clover Block:

Step 1) Clover Fabric A: 5 1/2" x 4 1/2"

- Layer a 2" background fabric square in the top left corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method. (If you are unsure about the directions, please refer to the text above for guidance.)
- Layer a 2" background fabric square in the top right corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.

- Layer a 2" background fabric square in the bottom left corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Set the block to the side.

Step 2) Clover Fabric B: 5 1/2" x 4 1/2"

- Layer a 2" background fabric square in the top left corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Layer a 2" background fabric square in the top right corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Layer a 2" background fabric square in the bottom right corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Set the block to the side.

Step 3) Clover Fabric A: 5" x 5" square

- Layer a 2" background fabric square in the bottom left corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Layer a 2" background fabric square in the bottom right corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Layer a 2" background fabric square in the top right corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Set the block to the side.

Step 4) Clover Fabric B: 5" x 5" square

- Layer a 2" background fabric square in the top left corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Layer a 2" background fabric square in the bottom left corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Layer a 2" background fabric square in the bottom right corner of the clover fabric and sew a diagonal line from point to point using the Flip-Stitch Method.
- Set the block to the side.

Step 5) Cut away from the Stitch Lines

- Cut 1/4" away from the stitch line using your rotary cutter and mat or use your sharp sewing scissors.

Step 6) Press Seams

- Press all seams by flipping the stitch up to complete the flip-stitch.

Step 7) Sew Stem Fabrics

- Sew fabrics A & B 1" x 7 1/2" stem fabrics together.
- Press seams open.

Step 8) Sew the Clover Block Together

- Lay out your Clover Block to admire it before sewing it together.
- Sew the top 2 clovers by sewing them together at the seams in the middle.
- Press seams open

- Sew the Background 5" x 3" Fabric to both bottoms of the bottom Green Clover.
- Press seams towards the background fabric bottom.
- Sew Steam fabric (place the steam fabric how you would like it to complete the Clover Block) by sewing the strip onto both sides of the bottom clover. *Friendly reminder: The background Fabric rectangle should be at the bottom of the block.*
- Complete the block by sewing the Clover Greens together.

We just finished sewing the Love You Clover block.

To create a full Quilting Your Legacy Table Topper, we need to repeat the same steps four times to make a total of five Clover blocks.

Once we have all the blocks, we can arrange them in a straight line or turn them in opposite directions to create a unique layout for my Table Topper.

Cheers to you, Legacy Quilter! It's time for us to quilt your Legacy!

Your Quilting Friend,

- *Emily*
