

Hi Quilting Friend!

Here's the Sewing Guide to Sewing a Log Cabin Quilt Block.

When making Log Cabin blocks, you typically begin with a square and then add strips around it. Usually, the two sides of the strips are lighter fabrics, while the other two are darker prints. **Traditionally, a red center square symbolizes the home's hearth**, while a yellow center represents light shining through the window.

If you're a beginner quilter, you'll love this versatile quilting block that's easy to make with the rotary method. You can use autumnal prints for a traditional, folksy look or go for a modern and breezy feel with different fabrics and colors.

To create this block, simply add 2 1/2" strips to the center square.

Share your **completed block on the Quilting Your Legacy Monthly Challenge Facebook group** (which is free) so that we can offer our support and encouragement, Quilting Friend.
