1. Features

- **Charging the Jump- Starter**
  - Charging times: Partially discharged (or after using Jump-starter) - 30-60 minutes, fully discharged Jump-starter battery - up to 4 hours

- **Using the USB port**
  - The USB port provides up to 2.4 Amps of current to charge cell phones, smartphones, tablets and other devices.
  - To charge USB devices:
    1. Open the protective cover over the USB port.
    2. Connect your USB device (smartphone, tablet, etc.) to the USB port using the USB cable supplied with your device.
    3. Press and release the POWER button.
    4. Charging will start and will stop at 2.4 Amps of current can be supplied by the port. The USB device controls the amount of current supplied. The Jump-starter never "pushes" more than required by the devices.
    5. When done, press and release the POWER button to turn off the USB port.

- **Jump-starting a vehicle**
  - You can use the DURACELL® Jump-starter with the supplied jump-cable to jump-start the engine of any car or motorcycle engine with a 12V battery.

- **WARNING: FIRE HAZARD**
  - Do not crank the engine for more than 4 seconds. The Jump-starter feature is designed for short term operation only. Operating the Jump-starter feature for more than 4 seconds may damage the battery. Allow the Jump- starter to cool down for at least 30 seconds after each jump-start.

- **To jump-start a vehicle engine**
  1. Turn OFF the vehicle or boat ignition and all accessories.
  2. Engage the park or emergency brake and place the transmission in Park for an automatic or neutral for a manual.
  3. If Jump-starting a boat engine, purge the engine compartment and bilge of all fuel.
  4. Position the Jump-starter on a flat, stable surface near the battery and away from all moving parts of the engine. Make sure the battery terminals or other attachment points are clear of dirt and grease to ensure proper electrical contact.
  5. Connect the red clamp (+) of the jump-cable to the positive (+) terminal of the engine battery. The battery’s positive terminal is usually larger in diameter than the negative terminal. In most vehicles, the battery’s positive terminal has a red wire connected to it. (Refer to your vehicle’s owner manual).

- **WARNING: IMPORTANT**
  - Your Jump-starter will perform best when its battery is fully charged. If the LED Fuel Gauge shows less than 100% charge, it is recommended to fully recharge your battery (see Section 3: "Charging the Jump-starter" above).

- **Using the LED light**
  - The DURACELL® Jump-starter has a built-in emergency light to provide a safe, bright light work in the outdoors or in other outdoor conditions.
    - Press the LIGHT button to turn ON the light:
      - High mode
      - Low mode
  - Press and release the LED button - SOS mode
  - Press and hold 3 seconds - off from any mode

2. Important safety information

- **WARNING: SHOCK HAZARD**
  - Disconnect jump-cable before charging the Jump-starter.

- **CAUTION**
  - Do not attempt to recharge the Jump-starter battery if it is frozen. Gradually warm the frozen battery to 32°F (0°C) before recharging.

- **Charging first use**
  - Prior to using the Jump-starter for the first time, ensure that the battery of the Jump-starter is fully charged. Charging with a USB charger may take up to 4 hours.

3. Specifications

- **Electrical specifications**
  - Charging input Voltage/Current: 12V / 0.9A
  - DC Adapter Input Voltage/Current: 12V / 0.9A
  - Safety certifications / Recertification: UL, CE, VDE, FCC

- **Physical specifications**
  - Length: 7.0 in (18 cm)
  - Width: 3.5 in (8 cm)
  - Height: 1.5 in (3.8 cm)
  - Weight: 5.9 lbs (600 g)

4. Important Safety Warnings

- **WARNING:** Read all the instructions before using the product.
  - To reduce the risk of injury, close supervision is necessary when product is used near children.
  - Do not insert fingers or foreign objects into the product.
  - Do not use this product with any application of which it was not intended.
  - Use of an attachment not recommended or sold by the manufacturer may result in risk of fire, electric shock or injury.

- **WARNING:** This product is NOT tested, designed nor intended to be used with life support systems or any other medical devices.

- **WARNING:** Do not use the product if it is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
  - Do not operate the power pack with a damaged cord or plug.
  - Do not disassemble the power pack, contact the manufacturer when service or repair is required. Incorrect reassembly may result in a risk of fire.
WARNING: Risk of explosive gases

WORKING IN THE VICINITY OF A LEAD ACID BATTERY IS DANGEROUS. BATTERIES GENERATE EXPLOSIVE GASES DURING NORMAL BATTERY OPERATION. FOR THIS REASON, IT IS OF THE UTMOST IMPORTANCE THAT YOU FOLLOW THE INSTRUCTIONS EACH TIME YOU USE THE POWER PACK.

To reduce risk of vehicle battery explosion, follow these instructions in vicinity of the battery. Review cautionary marking on this product and on vehicle engine.

WARNING: Personal precautions

- Consider having someone close enough by to come to your aid when you work near a lead-acid battery.
- Have plenty of fresh water and a scoop nearby in case battery acid contacts skin, clothing, or eyes. Wear complete eye protection and clothing protection. Avoid touching your eyes while working near a vehicle battery.
- If battery acid contacts skin or clothing, wash immediately with soap and water. If acid enters eyes, immediately flush eyes with running cold water for at least 10 minutes and get medical attention immediately.
- NEVER smoke or allow a spark or flame in vicinity of a vehicle battery or engine.
- Be extra cautious to reduce risk of dropping a metal tool onto the vehicle battery. It might spark or short-circuit battery or other electrical part that may cause an explosion.
- Remove personal metal items such as rings, bracelets, necklaces, and watches when working with a lead-acid battery. A lead-acid battery can produce a short-circuit current high enough to weld a ring or the like to metal, causing a severe burn.
- When charging the internal battery, work in a well ventilated area and do not restrict ventilation in any way.
- Under abusive conditions, liquid may be ejected from the battery, avoid any contact with this material. If contact accidentally occurs, flush with water. If liquid contacts eyes, additionally seek medical help. Liquid ejected from the battery may cause irritation or burns.
- Do not expose a power pack to fire or excessive temperatures. Exposure to fire or temperatures above 265°F (130°C) may cause an explosion.
- Attach output cables to a battery and charge as indicated in these instructions. Never allow the output clamps to touch one another.

IMPORTANT: SAVE THESE INSTRUCTIONS

10. Recycling

DURACELL® is committed to environmental responsibility and recommends that electronic devices be disposed of properly. Please contact your local city offices for information on recycling and disposal programs for e-waste.

For instructions on how to recycle this product visit http://www.call2Recycle.org.

11. Contacting Customer Support

If you experience any problems or have any questions regarding your DURACELL® product, free technical support is available. Prior to calling, please review the technical support tips below. Call from a phone where you have access to your mobile device.

Be prepared to provide the following information:
- Name, address and telephone number
- Name of the DURACELL® product
- Make and model of your device
- Symptoms of the problem(s) and what led to them

Technical Support is available by telephone:

U.S. and Canada 1-800-300-1567
Outside of the U.S/Canada: 1-805-437-7781

Written Inquiries should be directed to:
DURACELL®Product Inquiry
1300 Flynn Road, Camarillo, CA 93012, USA

Email Inquiries should be directed to:
info@DURACELLPower.com

2. Warranty and return information

Two Year Limited Warranty

The DURACELL® product carries a limited warranty against defects in material and workmanship under normal use and service for two years from the original date of purchase. The manufacturer or distributor, at its option, shall repair or replace the defective unit covered by this warranty. Please retain the dated sales receipt as evidence of the date of purchase as it will be required for any warranty service. In order to keep the warranty in effect, the product must have been handled and used as described in the instructions accompanying this warranty. This warranty does not cover any damage due to accident, misuse, abuse or negligence.

Disclaimer Of Warranty

The limited warranty described herein is a sole remedy. To the extent permitted by law, the manufacturer and distributor disclaim all other implied or express warranties including all warranties of merchantability and/ or fitness for any particular purpose.

Limitation Of Liability

Except to the extent of repairing or replacing this product as expressly stated in the limited warranty described herein, the manufacturer and distributor shall not be liable for any damages, whether direct, indirect, incidental, special, consequential, exemplary, or otherwise, including lost revenues, lost profits, loss of use of software, loss of recovery of data, rental of replacement equipment, downtime, damage to property, and third-party claims, arising out of any theory of recovery, including statutory, contract or tort. Notwithstanding the term of any limited or implied warranty, or in the event that any limited warranty fails of its essential purpose, in no event will the manufacturer’s and distributors entire liability exceed the purchase price of this product. Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages so the above limitations or exclusions may not apply to you. This limited warranty gives you specific legal rights. You may have other rights which vary from state to state and province to province.

WARNING

This product contains chemical(s) known to the State of California to cause cancer, birth defects, or other reproductive harm.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation of this product is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced technician for help.

Changes or modifications not expressly approved by the party responsible for compliance with the FCC Rules could void the user’s authority to operate this equipment.

Canada ICES-003 Statement

This Class B digital apparatus complies with Canadian ICES-003. 1. Under industry Canada regulations, this radio transmitter may only operate using an antenna type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the radiated energy from the antenna does not exceed the maximum permissible level specified in the standard. 2. This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body. 3. “This device complies with Industry (license-exempt RSS standard(s)). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.”
