

35 (1.38")

56
(2.2")

FUNCTION: long barrel powered USB A outlet
 MATERIALS: polycarbonate casing, electrical components
 CONFIGURATION: for use in all 22.2 alternate mounting plates
 INPUT: 120/240 AC, 50/60Hz, 0.3A
 OUTPUT: 5V DC, 2.1A-3A

DESCRIPTION

The 22 system is a complete suite of interior surface accessories that challenge the traditional, tired and ubiquitous cover plate concept. The 22 is designed to "mud" directly into drywall without a visible cover plate or trim. Alternatively, it may be set flush into millwork, marble, glass or any other surface. 22 operative components include: power outlets, data & communication, telephone receptacles, cable and HDMI connectors, line voltage on/off switches, keypad controls, and USB.

APPLICATIONS

The 22.3.10L is a powered USB A outlet electrical receptacle used for charging any 5V USB device. The 22.3.10L can be inserted into any of the 22.2 series alternate mounting plates. The suffix "L" refers to the extended barrel length for use with thick finish materials.

NOTES

- + Mounting plates sold separately
- + Purchase additional components at www.bocci.com/shop/22

Best practice statement: For ease of future access or maintenance, we recommend a single incoming wire to the junction box (no J-box splices) immediately behind the 22 receptacles.
