

FUNCTION: standard barrel powered USB A outlet  
 MATERIALS: polycarbonate casing, electrical components  
 CONFIGURATION: for use in all 22.2 mounting plates  
 INPUT: 120/240 AC, 50/60Hz, 0.3A  
 OUTPUT: 5V DC, 2.1A-3A

**DESCRIPTION**

The 22 system is a complete suite of interior surface accessories that challenge the traditional, tired and ubiquitous cover plate concept. The 22 is designed to “mud” directly into drywall without a visible cover plate or trim. Alternatively, it may be set flush into millwork, marble, glass or any other surface. 22 operative components include: power outlets, data & communication, telephone receptacles, cable and HDMI connectors, line voltage on/off switches, keypad controls, and USB.

**APPLICATIONS**

The 22.3.10 is a powered USB A outlet electrical receptacle used for charging any 5V USB device. The 22.3.10 can be inserted into any of the 22.2 series mounting plates.

**NOTES**

- + Mounting plates sold separately
- + Purchase additional components at [www.bocci.com/shop/22](http://www.bocci.com/shop/22)

**Best practice statement: For ease of future access or maintenance, we recommend a single incoming wire to the junction box (no J-box splices) immediately behind the 22 receptacles.**
