

FUNCTION: standard barrel 15A outlet  
 MATERIALS: polycarbonate casing, electrical components  
 CONFIGURATION: for use in all 22.2 mounting plates  
 INPUT / OUTPUT: 125V AC, 60Hz, 15A

#### DESCRIPTION

The 22 system is a complete suite of interior surface accessories that challenge the traditional, tired and ubiquitous cover plate concept. The 22 is designed to "mud" directly into drywall without a visible cover plate or trim. Alternatively, it may be set flush into millwork, marble, glass or any other surface. 22 operative components include: power outlets, data & communication, telephone receptacles, cable and HDMI connectors, line voltage on/off switches, keypad controls, and USB.

#### APPLICATIONS

The 22.3.7 is a type B outlet. It is compatible with plug types A & B. The 22.3.7 can be inserted into any of the 22.2 series mounting plates.

#### NOTES

- + Mounting plates sold separately
- + Purchase additional components at [www.bocci.com/shop/22](http://www.bocci.com/shop/22)

**Best practice statement: For ease of future access or maintenance, we recommend a single incoming wire to the junction box (no J-box splices) immediately behind the 22 receptacles.**
