LBII-19 LEVER HANDLE SATIN BLACK

ONCE UPON A TIME

Hoewel de oorsprong van Withuishof onbekend is, kent dit prachtige 17e-eeuwse object een rijke geschiedenis. Zo werd de hoeve in 1801 aangrijpend vernieuwd, nadat twee dochters van de familie Sleypen met twee zonen van de familie Schoenmaeckers trouwden. Een verbintenis die betekende dat het familiekapitaal van twee families samensmolten.

Although the origins of the Withuishof villa remain unknown, this stunning seventeenth-century building has a rich history. The estate underwent extensive renovation in 1801, after two Sleypen daughters married two Schoenmaeckers sons – a union that combined and consolidated the two family fortunes.

FEEL THE SPIRIT

Van het rijke interieur, waarvan met zekerheid delen zijn ontworpen door de Maastrichtse architect Mathias Soiron, heeft maar weinig de tand des tijds doorstaan. Slechts enkele Lodewijk XVI-stijlelementen zijn bewaard gebleven. De combinatie van deze elementen met hedendaagse meubelen en eigentijdse objecten geeft de hoeve een niet te kopiëren look.

Unfortunately, much of the interior – parts of which were almost certainly designed by an architect from Maastricht; Mathias Soiron – did not stand the test of time. A few Louis XVI style elements are the only remaining artefacts. These elements, paired with the modern furniture and contemporary objects, lend the estate an air that cannot be equalled or rivalled.

LBII-19 LEVER HANDLE SATIN BLACK

URBAN WORKSPACE

Het neoclassicistische karakter van dit rijksmonument is te danken aan verbouwingen aan het eind van de 19e eeuw. Deed het landhuis, aan de rand van Maastricht, in de vorige eeuw dienst als buitenverblijf voor de Zusters Ursulinen, toverde de huidige eigenaar het om tot een eigentijdse en inspirerende verzamelplek voor bedrijven.

The neoclassical design of this national heritage building is the result of renovations in the late nineteenth century. The country estate on the outskirts of Maastricht, which once served as a holiday home for the Order of the Ursulines, was transformed by the current owner into a contemporary and inspiring meeting place for companies.

A man's
manners
are a mirror
in which he
shows his
portrait.

LBWC50 PRIVACY SET SATIN BLACK

CRISP AND CLEAR DOORWARE

De zwarte doorware uit de Basics serie past bij het schaakspel van de zwart witte vloeren. De no-nonsense vormgeving van de doorware laat de eeuwenoude schoonheid van het gebouw spreken en sluit naadloos aan bij het eigentijdse karakter. In deze setting ontpopt de Basics serie een veelzijdigheid die te vergelijken is met de verscheidenheid van de in Withuishof gevestigde bedrijven.

The black door fittings from the Basics series complement the black-and-white checked floors beautifully. The clean design of the door fittings showcases the centuries-old beauty of the building and fits seamlessly with the contemporary character. In this setting, the Basics series offers a versatility that mirrors the diversity of the companies housed within.

DEURBESLAG | DOOR FITTINGS

An aerial photograph of the Maastricht UMC+ Hospital complex. The image shows a large, modern hospital building with a curved glass facade and a white exterior. To its left is a smaller building with red and black vertical panels. In the foreground, there is a green lawn and a parking lot. In the background, the city of Maastricht is visible with its characteristic red-roofed buildings and a bridge over a river.

LBS-D LEVER HANDLE SATIN STAINLESS STEEL

715 BEDS AND 5.000 STUDENTS

Het Maastricht Universitair Medisch Centrum+ is de overkoepelende naam voor de samenwerking tussen het Academisch ziekenhuis Maastricht (azM) en de Universiteit Maastricht (UM). In dit academische ziekenhuis met 715 bedden werken circa 7.000 mensen en 5.000 studenten.

De kerntaken van Maastricht UMC+ zijn patiëntenzorg, onderwijs en onderzoek. Het ziekenhuis maakt deel uit van de Brightlands Health Campus en onderscheidt zich (inter)nationaal door de focus op preventie. Er is dus aandacht voor meer dan alleen gezondheidsherstel.

Maastricht University Medical Centre+ (Maastricht UMC+) is the umbrella term for the partnership between Academic Hospital Maastricht AZM and Maastricht University. This academic hospital counts 715 beds and has 7,000 staff and 5,000 students working here.

The focus areas of Maastricht UMC+ are patient care, education, and research. The hospital is part of the Brightlands Health Campus and is internationally distinguished by its focus on prevention. This means that attention is paid to more than the recovery of health alone.

BASICS

WHEN IT GETS TOUGH

Het Maastricht UMC+ koos voor de doorware uit de Basics collectie van FORMANI®. De speciaal voor het ziekenhuis ontwikkelde Basics Solide serie is een antwoord op het intense en soms hardhandige gebruik waaraan beslag in een dergelijke omgeving dient te voldoen, denk alleen al aan bedden die in een ziekenhuis langs de deuren schuren.

De Basics Solide serie is gemaakt uit extra dikwandig buismateriaal en voorzien van een massieve, ofwel solide, nek op een 3mm dik schild. De bevestiging van de kruk op een schild met speciale glijlagers garandeert langdurig, geruisloos gebruik. Stevige M5 bouten zien toe op een degelijke bevestiging. De kwaliteiten van deze serie blijven niet onopgemerkt. Er zijn steeds meer gezondheidscentra en scholen die vanwege het duurzame karakter voor deze serie van FORMANI® kiezen.

Maastricht UMC+ chose the door fittings from the FORMANI® Basics collection. The Basics Solide series was developed specially for the hospital and serves as a solution for the hardy wear that fittings in such surrounding have to endure, such as hospital beds being pushed against doors as they're being moved through the hospital.

The Basic Solide series was made of extra thick-walled tubing and features a solid neck on a 3 mm-thick plate. The attachment of the handle on a plate with special sliding bearings guarantees long-term use without making a sound. Solid M5 screws ensure that it is always properly attached. The excellent features of this series have not gone unnoticed and an increasing number of health centres and schools are choosing this series by FORMANI® for its long-lasting quality.
