w73×h42×d47.5mm Code AD-CL

Flat Short
w69×h42×d39mm Code AD-FS

Flat Long
w69×h42×d47.5mm Code AD-FL

Lever Handles

Lever handles are available in 4 different shapes. Each handle is designed to best showcase the natural expression of the brass casting and can be combined with an interchangeable plate for a range of possible combinations to fit any aesthetic. Separately, we offer a range of latches that can be fitted on any door.

Standard Set includes:
- Lever handle
- Plate
- Mortise lock kit
- Brass minus screws
* The mortise lock kit does not come with a lock mechanism cylinder. If you need a lock such as for a bathroom, you need to purchase the latches separately.

Sold separately:
- Latches

Installation:
These levers are designed for wood and wood composite doors only.
For installation, the minimum door thickness is 33mm. The measurement of the backset is 63.5mm. Professional installation is recommended.
