## ABOUT QTOO

Qtoo is making exclusive bathroom taps and accessories in timeless Danish design. The design is produced in certified marine grade stainless steel which is the absolute best sustainable material for healthy and clean drinking water. Qtoo believes in living with beautiful design, outstanding quality, environmental responsibility and solutions that benefit our health.

Qtoo fremstiller eksklusive badeværelsесarmaturer og tilbehør i et tidløst dansk design. Designet er produceret i syrefast rustfrit stål i klassen AISI-316, som er det bedste, og samtidig mest bæredygtige materiale, til sundt og rent drikkevand. Qtoo tror på et liv med smukt design, enestående kvalitet, miljøansvar og løsninger, der værner om vores sundhed.

## DESIGN MATTERS

Qtoo has a yearlong collaboration with the well-known Danish design studio Hans Thyge & Co. Hans Thyge & Co specializes in designing furniture, objects and interiors. The studio has a long history of know-how and experience working with a variety of materials and production methods for clients worldwide. They have received several awards throughout the years in the international design scene.

The Qtoo collections are continuously undergoing carefully selected updates and improvements latest changing the size of roses to give a more characteristic and expressive look and at the same time making it possible to implement new technical features. This is Qtoo at the core; form follows function.

Qtoo har i mange år samarbejdet med det anerkendte danske designstudie Hans Thyge & Co. Hans Thyge & Co er specialiseret i design af møbler, objekter og indretning. Studiet har stor know-how og erfaring med forskellige materialer og produktionsmetoder. Hans Thyge & Co arbejder for kunder over hele verden, og har modtaget flere priser gennem årene på den internationale designscene.

Qtoo kollektionerne gennemgår kontinuerligt nøje udvalgte opdateringer og forbedringer. Senest er rosetternes størrelse ændret, for at give et mere karakteristisk og markant udtryk. Samtidig implementeres væsentlige tekniske forbedringer. Dette er essensen af Qtoo; form follows function.

## QUALITY IS EVERYTHING

Qtoo products have unique precision and finish. They are manufactured in stainless steel grade 316. Stainless steel in grade 316, also known as marine grade, is authentic and extremely durable. It is resistant to aggressive environments such as coastal areas and wellness and spa resorts.

All joints are tested for the risk of leakage at 15 bar. All wearing parts are carefully selected in the best quality. All products are manufactured in our own factory with severe quality control and we offer 10-year product guarantee.

Qtoos produkter er udført med præcision og i ekstraordinær finish. De er fremstillet i rustfrit stål klasse AISI-316. Rustfrit stål i kvaliteten AISI-316, også kendt som syrefast rustfrit stål, er autentisk og ekstremt holdbart. Det er modstandsdygtigt i aggressive miljøer såsom kystområder samt wellness og spa-resorts.

Alle produkter der forlader fabrikken er testet ved 15 bar tryk for at fjerne risiko for løkage. Alle dele er omhyggeligt udvalgt i bedste kvalitet. Vi bruger udelukkende komponenter af højeste kvalitet, såsom keramiske mikser og certificerede luftblandere. Alle produkter fremstilles på vores egen fabrik med streng kvalitetskontrol, og vi tilbyder 10 års garanti.

## SUSTAINABLE THINKING

Qtoo products are made from 100% recyclable materials. They have a long lifespan and remains beautiful. There are fewer heavy metals in stainless steel compared to normal chrome products. No chemicals are used in the production of stainless steel, nor any contaminating surface treatments opposite the manufacturing of chrome taps.

We have integrated air mixers as standard to reduce water consumption. Qtoo is CSA certified and conforms to California code which means our products lives up to strict water saving standards.

Qtoos produkter er produceret af rustfrit stål, som er et 100% genanvendeligt materiale. Produkterne har en ekstraordinær lang levetid og forbliver smukke med et minimum af vedligehold. Der er færre tungmetaller i rustfrit stål sammenlignet med forkromet messing, som traditionelt benyttes til fremstilling af armaturer. Der bruges ingen kemikalier i forarbejdningen af det rustfrie stål. Vi har vandbegrænsende luftblandere som standard i alle vores produkter, for at reducere vandforbruget.

## HEALTHY DRINKING

With Qtoo products you can be sure to drink extraordinary clean water.

Qtoo have obtained the GDV certification as well as the NSF/ANSI61 certification, which is your guarantee that there are fewer heavy metal in the water compared with normal taps often made in chromed brass.

All our taps are lead free and allergy friendly.

Med Qtoos produkter, kan du være sikker på at tappe renere vand. Qtoo har GDV godkendelse såvel som NSF/ANSI61-certificering. Certificeringerne er din garanti for, at alle sundhedsmæssige krav og godkendelser er overholdt. Ydermere er det et faktum, at rustfrit stål afgiver færre tungmetaller til vandet, end eksempelvis messing.

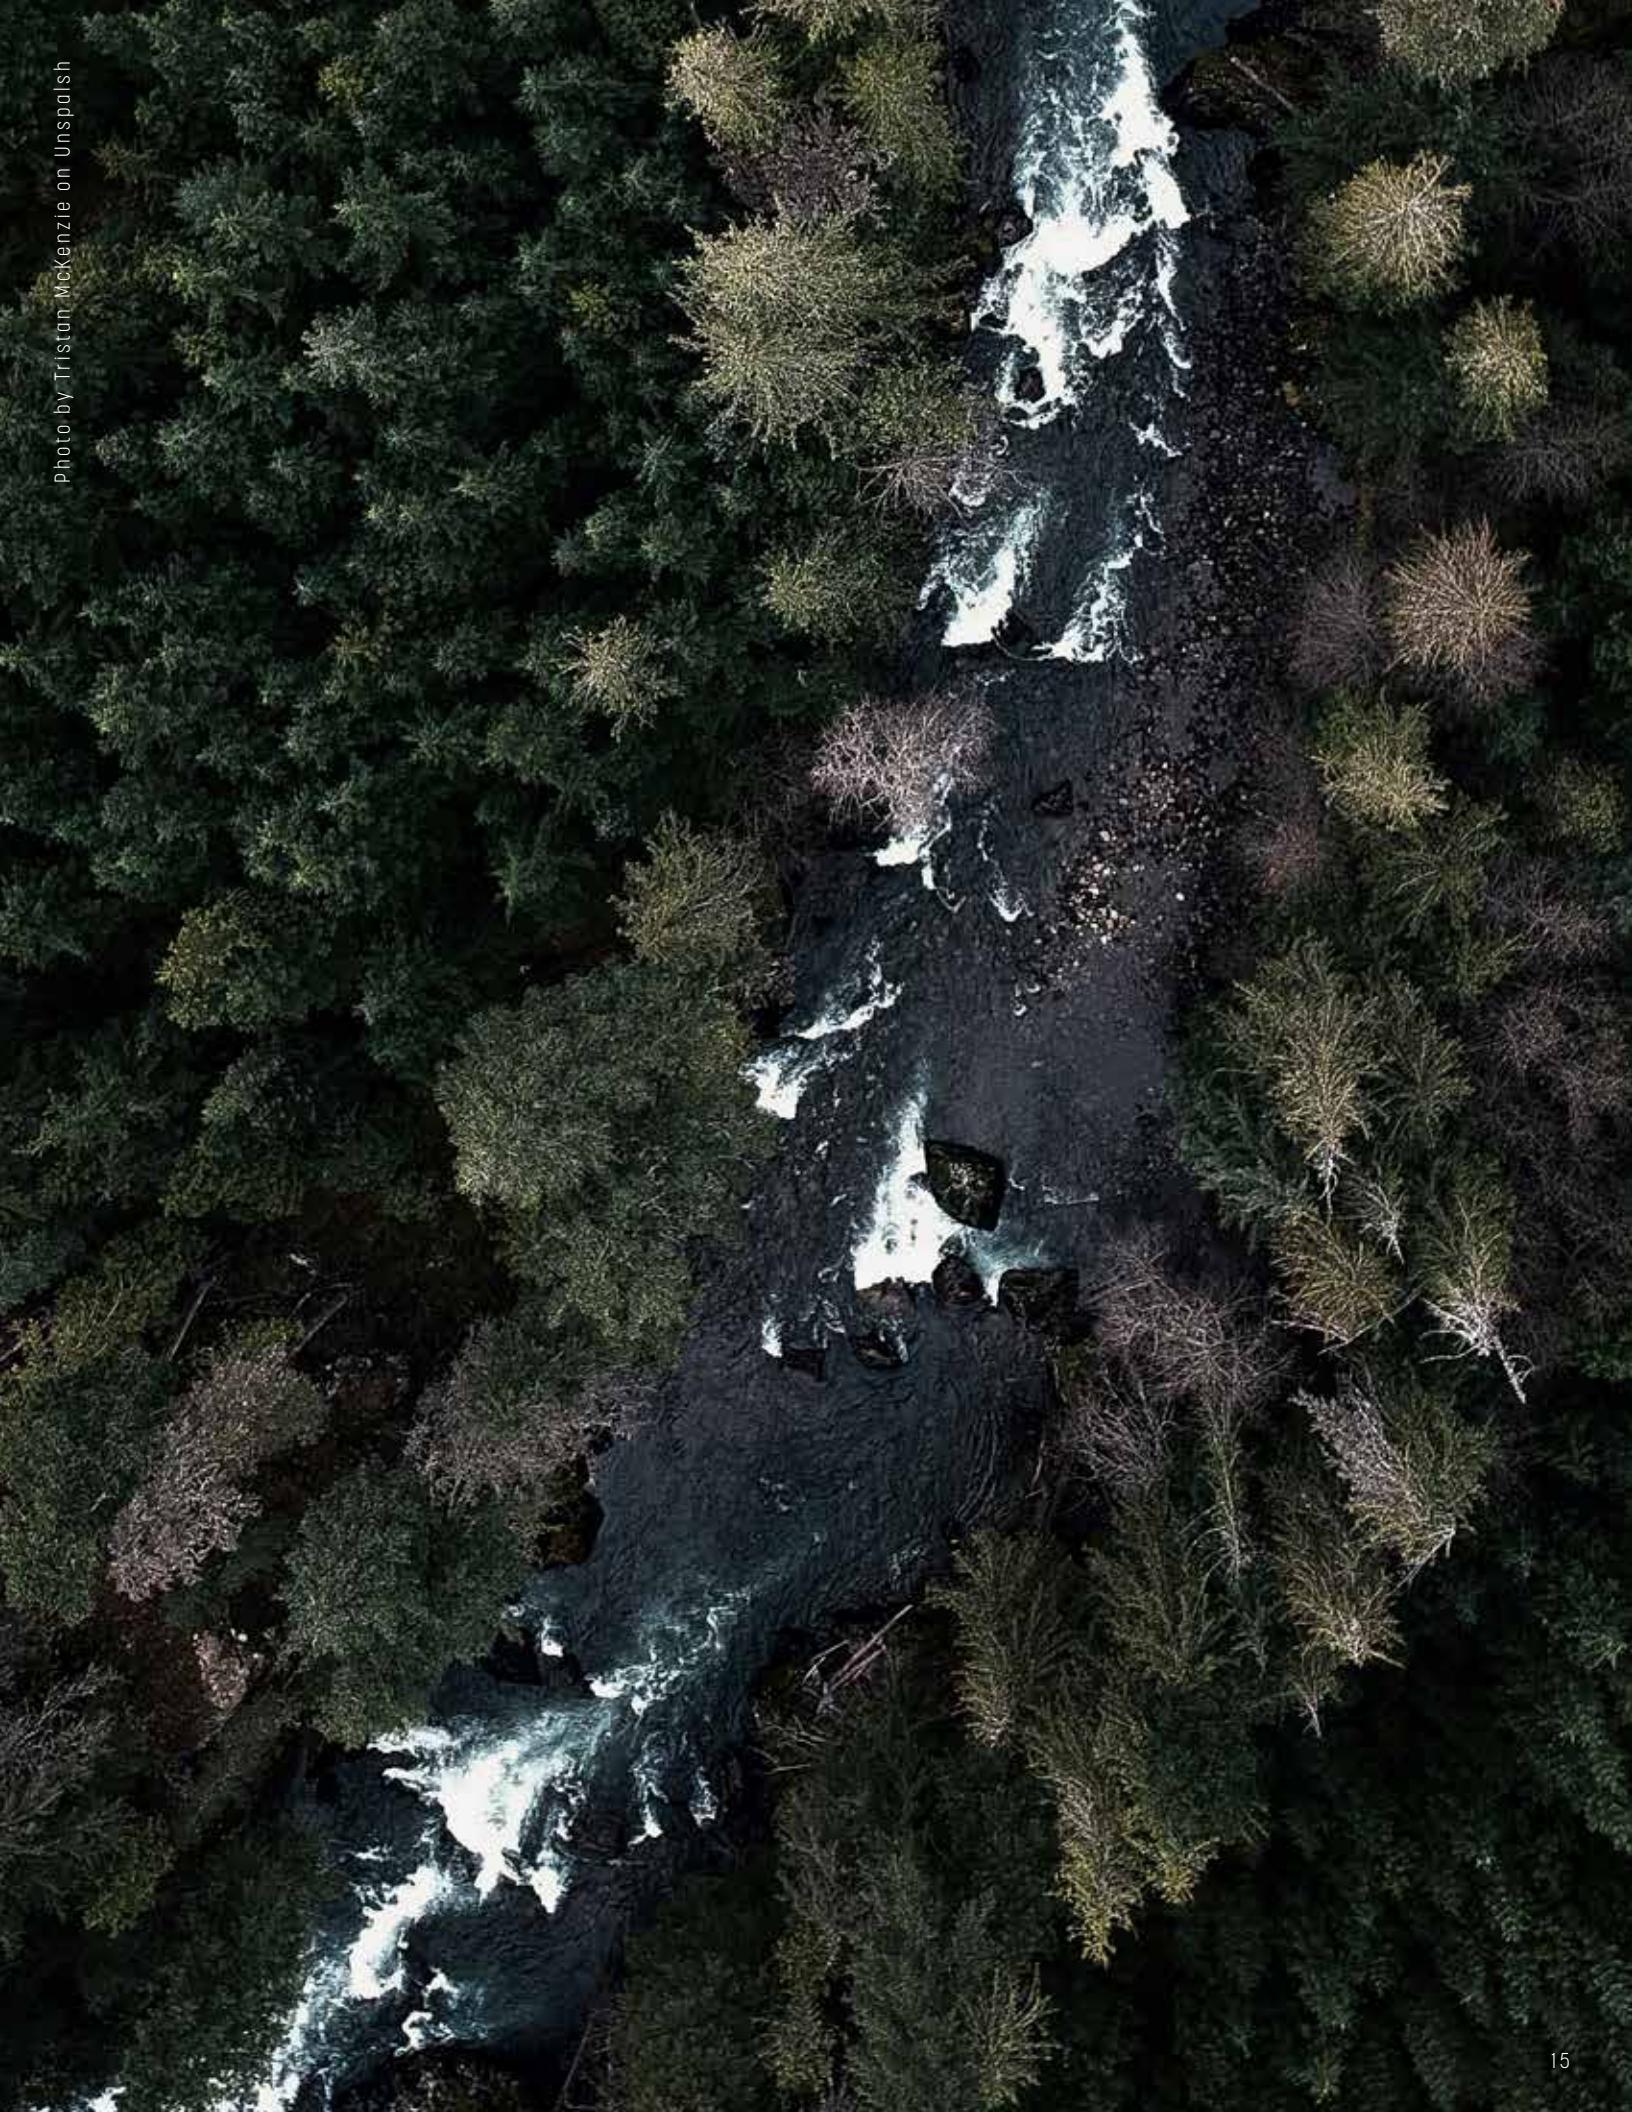

Alle vores produkter er blyfri og allergivenlige.

GODKENDT

## EASY MAINTENANCE

Stainless steel has low maintenance requirements and is resistant to aggressive environments. The resistance is due to a thin, durable membrane that repairs itself. Should the membrane be damaged or removed, it automatically recovers, provided by regular cleaning.

All products are to be cleaned with only soap or a mild detergent and rinsed with water afterwards and finished with wiping / polishing the surface with a soft, dry cloth.

If discolouration or stains occur on the surface, these are not due to the stainless steel, but to impurities in the water, air or cleaning agents that have not been thoroughly removed from the surface, these can be removed with a stainless-steel polish.

Syrefast rustfrit stål har ganske få vedligeholdelseskrav og er ekstremt modstandsdygtigt overfor påvirkninger i aggressive miljøer. Dette skyldes en tynd membran, der reparerer sig selv. Hvis membranen beskadiges eller fjernes, gendannes den naturligt ved regelmæssig og korrekt rengøring.

Alle produkter rengøres kun med et mildt rengøringsmiddel og skylles derefter med vand. Afslutningsvis tørres overfladen med en blød, tør klud. Hvis der forekommer misfarvning eller pletter på overfladen, skyldes disse ikke det rustfrie stål, men urenheder på overfladen der ikke er blevet fjernet ved rengøring.

## THE COLLECTIONS

- > Circle Collection
- > Circle Black Collection
- > Compose Collection
- > Uno Accessories

QTOO collections are a unique blend of modern minimalistic design and innovative functional ideas. The collection has a solid raw architectonical look that mix the soft feminine shapes with the matt brushed stainless steel. All collections reflect the perfect composition of geometric lines. Everything crafted in environmental solid stainless steel. Every detail is well thought out from the casing to the soft smooth curves of the handle.

The collections have a design with character, it is simple, raw solid and indestructible. The Qtoo assortment has a clear and coherent expression and can be combined in many ways.

Qtoo er garant for design i moderne minimalistisk stil i perfekt harmoni med både innovative og funktionelle løsninger. Et råt arkitektonisk udtryk, hvor de bløde feminine former, den autentiske følelse massivt rustfrit stål giver, fuldendes i nøje afstemte geometriske linjer.

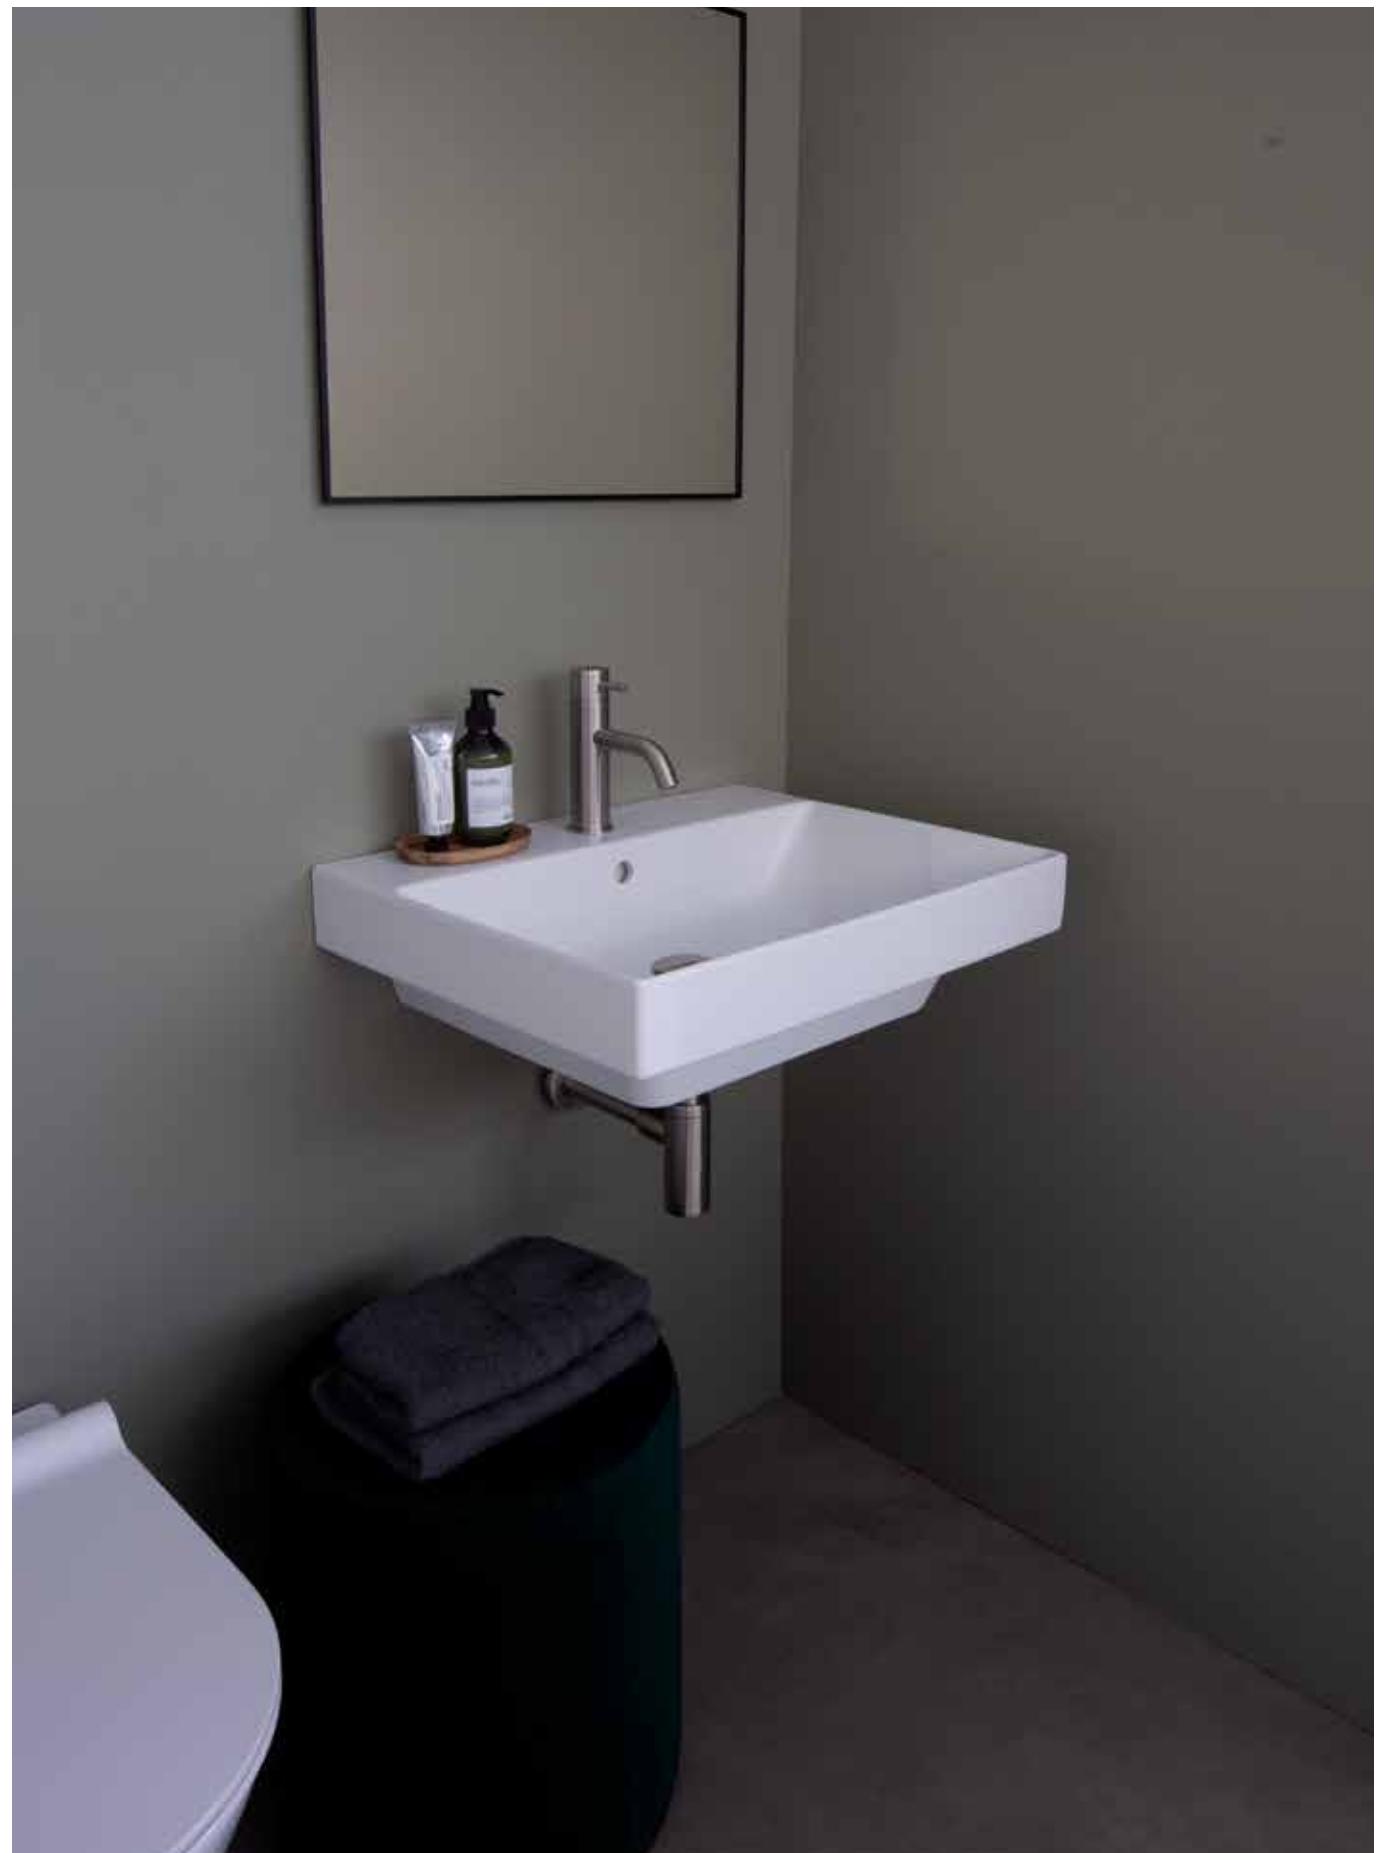

Hele Qtoo sortimentet har et enkelt og sammenhængende udtryk der kan kombineres på mange måder.

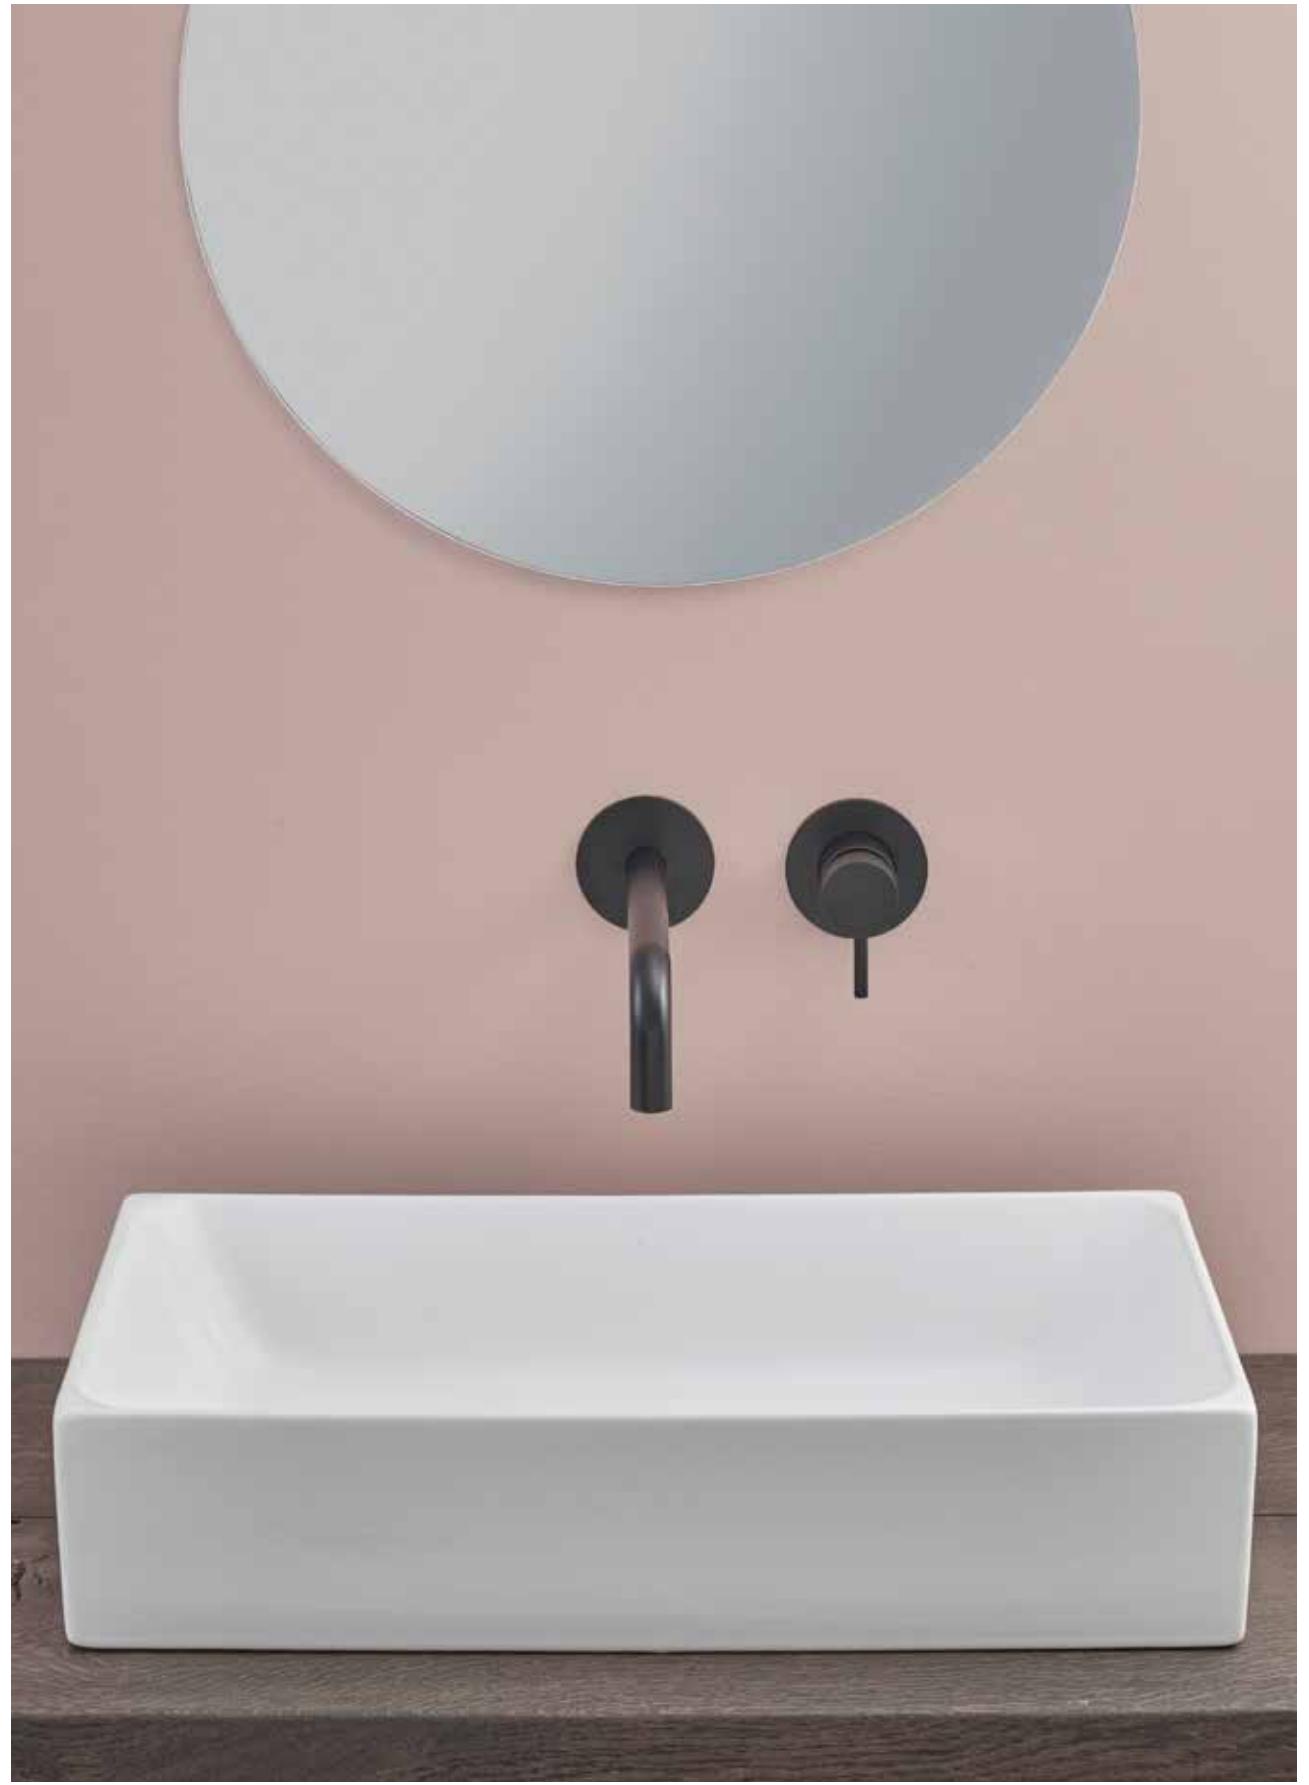

## SINK

The Qtoo taps with their unique proportions makes them an everyday pleasure to use. The taps can be either deck mounted or incorporated into the wall. The one lever control moves softly when turning on the water and when adjusting the temperature or water flow. The pin on the handle is placed downwards, so water does not run into the handle.

Qtoos håndvaskarmaturer kan bygges ind i væggen eller monteres på eller ved vasken. Ved begge løsninger bliver fornøjelsen den samme, grebet bevæges i glidende bevægelser når du åbner for vandet, regulerer temperaturen eller vandstrømmen. Pinden på grebet peger nedad, hvilket gør det lettere at betjene armaturet og samtidig forhindres vandet i at løbe ned i samlingen.

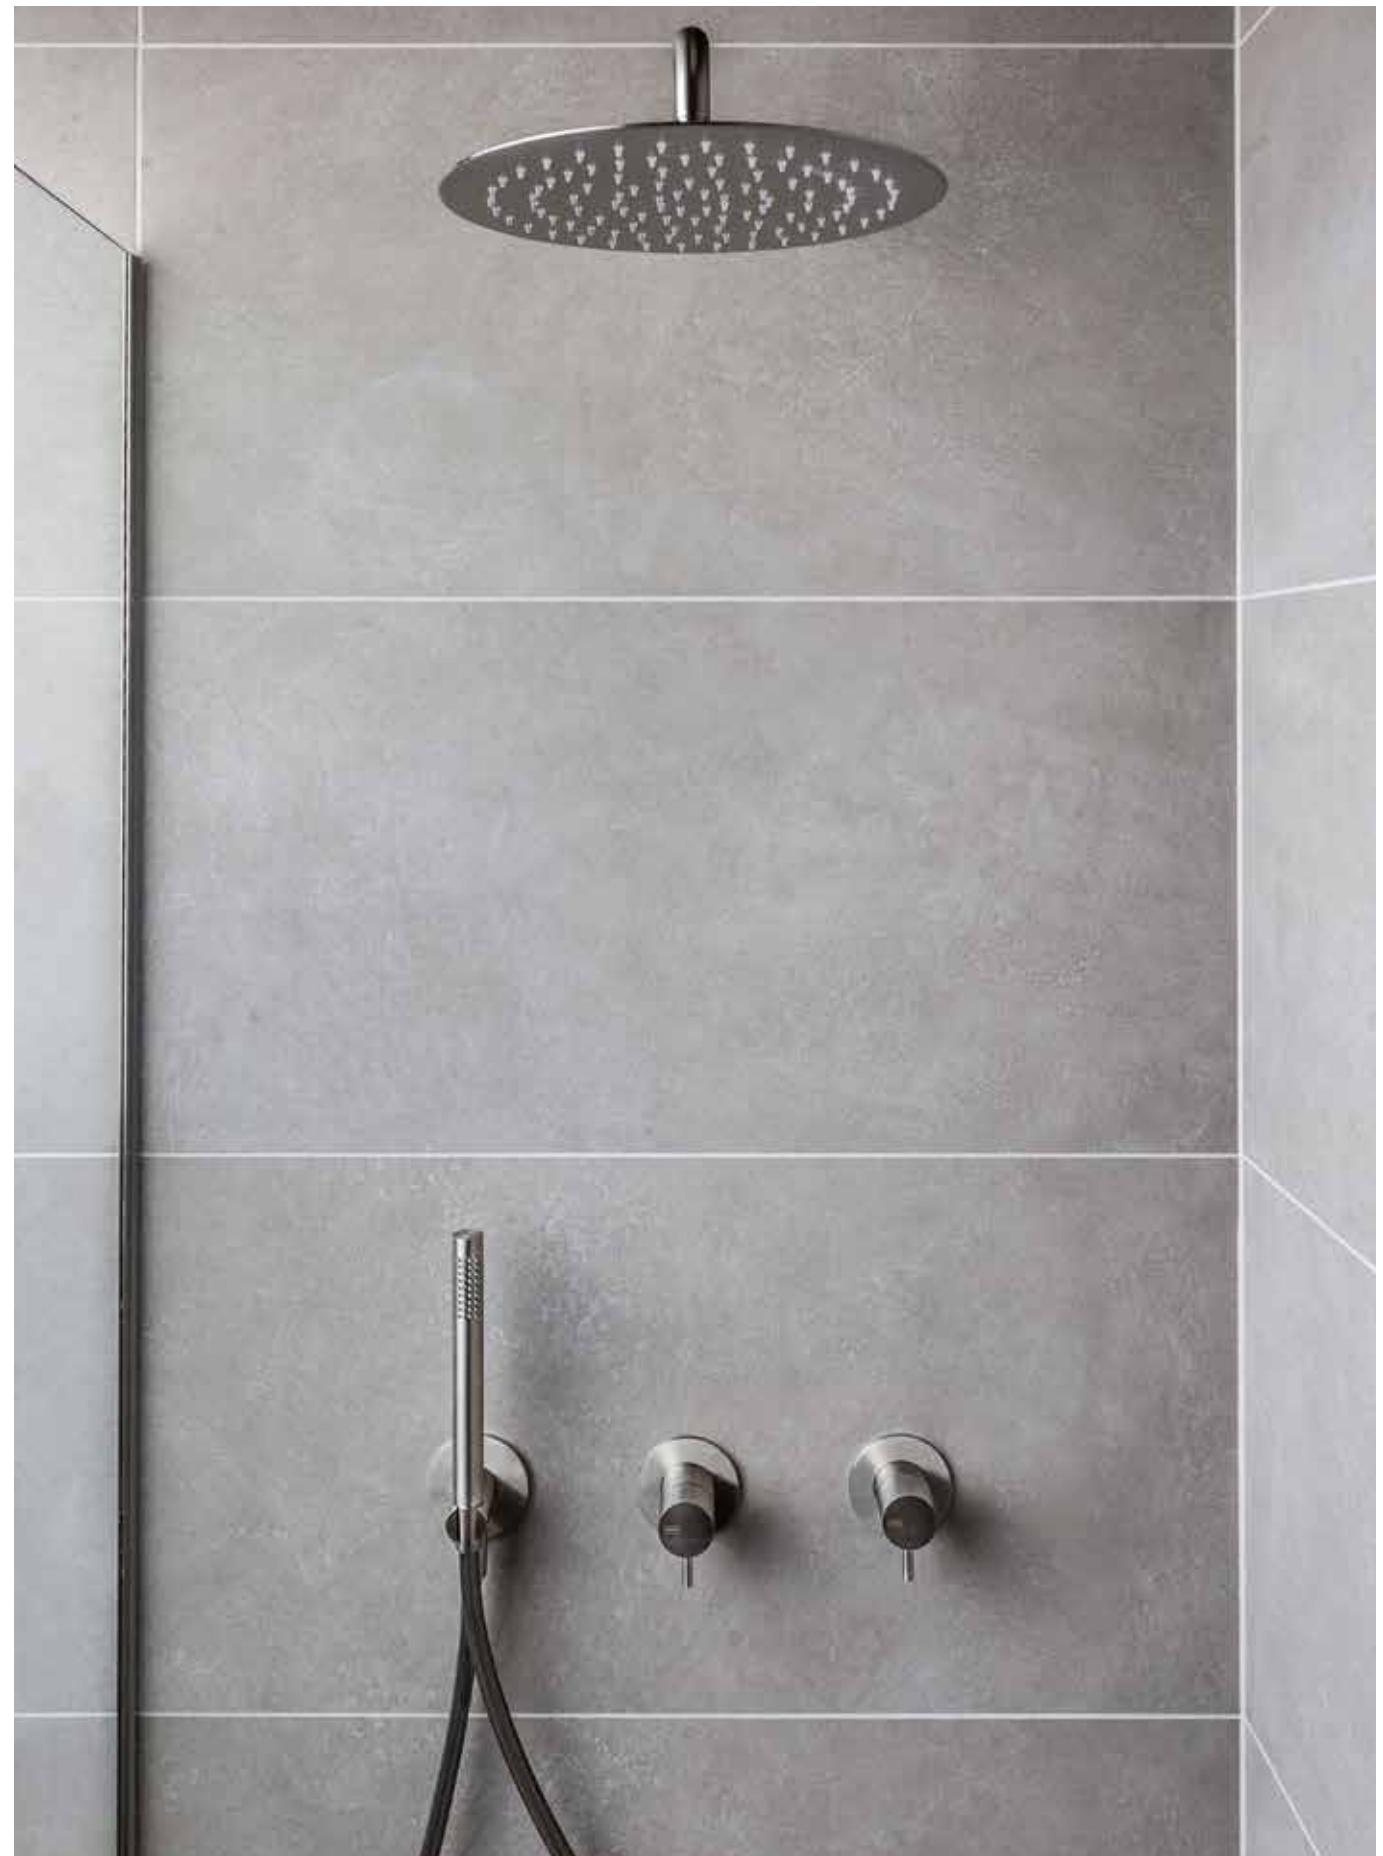

## SHOWER

The Qtoo shower system can be mixed and matched in many ways - to your needs.

The collection contains different shower heads, arms and hoses. You can choose either a simple mixer or the innovative two-way thermostat. The thermostat adjusts the temperature and also features a clever antiscald function as extra security, especially for families with children.

Qtoos bruseløsninger kan kombineres efter dit ønske, der findes forskellige varianter af brusehoveder, slanger, lofts- og vægarme. Du kan vælge en mikser eller den innovative 2-vejs termostat. Termostaten justerer temperaturen og har en smart indbygget antiskoldningsfunktion som ekstra sikkerhed, især for børnefamilier.

## BATHTUB

The Qtoo bathtub taps can be combined according to your personal needs. Regardless of whether the bathtub has integrated water-filling or not, you will find a solution that fits your needs. The spout enhances the collection with a solid and refined expression. The thermostat adjusts the temperature and also features a clever antiscald function as extra security, especially for families with children.

Qtoo kararmaturer kan også kombineres efter individuelle ønsker. Uanset om badekarret har integreret vandpåfyldning eller fyldes ved en tud, vil du finde en løsning, der passer til dine ønsker. Tuden giver et enkelt og raffineret udtryk. Også her kan du vælge mikser eller termostatløsningen, hvor termostaten indeholder den smarte antiskoldningsfunktion.

"The way we feel a design is seeing and touching the surfaces, the shapes, the nature of the materials ..... when these sensations merge, we have the experience of a design"

Hans Thyge Raunkjær

## ACCESSORIES

The Uno bathroom accessories from Qtoo completes the bathroom and ensure that the entire expression has the same DNA. The circular minimalist design goes perfectly together with the taps and other details in the collections. Elegance and quality are incorporated in every detail.

Badeværelsestilbehøret fra Qtoo fuldender badeværelset og sikrer, at hele udtrykket har det samme DNA. Det cirkulære minimalistiske design komplementerer armaturerne perfekt - og giver dig følelsen af helheden i rummet, ned til den mindste detalje.
