

SCHNEID

Eikon is made of certified wood and a lampshade that is attached simply with the help of magnets. The wooden socket of the lamp constitutes the minimalist and clean base of the lamp. The lampshade, made of steel or silicone and available in two different sizes, forms a perfect contrast with its vibrant colors or with its elegant and reflecting surface. With the magnetic connecting system, the lampshade can be changed with little effort for another color, shape or material which can be easily attached to the wooden base.

shade: silicon white + ash, oak, bamboo, walnut or black oak

cord color: basic white, deep black, ice blue, smooth creme, coral orange, light yellow

Figura - (2018) A melodious name that refers to the special shape of the luminaire. By a playful use of lines and forms, three different versions were created, each of which, individually or in combination, exude gracefulness. With the fine metal tube, the line of the cable becomes a design element and part of the sculptural silhouette. The three shades, inspired by the authentic aesthetics of classic industrial luminaires, have a minimalist, graphic expression.

material: aluminium

shade: chrome, brass, deep black, soft white, desert sand, burnt orange, forest green, midnight blue

cord color: black, white, sand, burnt orange, forest green, midnight blue, grey, red

SCHNEID

Junit The Junit light is a modular pendant lamp that consists of eight different elements. The units are turned from high-quality ash wood and painted in a german workshop. The elements of the Junit series come in a natural, clear finish and each in different colors. The bulb complements the colorful lamp with its oversized, milky glass which produces warm, ambient light. To complete the individual look of the lamp, you can choose from eight different textile cable colors. ash wood, in teal green, magenta, orange, yellow, pink, mint, blue, white, black, natural

SCHNEID

Zappy- Zappy stands out with its soft and inviting glow. The carefully handmade lamp of ash or oak veneer illuminates any indoor space with sublime light quality. With its delicate wooden panels and the detailed natural design, it impresses as a beautiful lighting object and will be a focal point in any room. While the ash veneer is characterized by a brighter tone and a higher light output, the oak veneer in a natural finish or smoked oak version in black has lots of impact since it appears darker and displays the strong natural structure of the wood. Zappy is available in three sizes and three types of wood; ash, oak or smoked oak veneer.

cord colors: basic white, ice blue, deep black, smooth creme, coral orange, light yellow
