

Collection *Tools*

Designed by Big-Game

To design the TOOLS collection, the three designers were inspired by wrenches that have a clean geometric shape but also feel good in the hand.

Putting to use Vervloet's expertise and hand working craftsmanship, BIG-GAME designed a complete range of knobs and handles all made from a bar of metal with twelve perfectly polished facettes.

The language of the handles matches both classical and contemporary interiors, with straight surfaces reflecting the light while the gentle structure feels comfortable in the hand - like a beautiful set of quality tools.
