Safety Instructions

Please read and understand all instructions before using this product. If damage is caused by failure to follow the instructions, the warranty does not apply.

- Keep these instructions.
- Do not drop, puncture or disassemble this product.
- This product shall not be exposed to dripping or splashing.
- Avoid long exposure to direct sunlight, which may cause damage.
- Exposing this product to open flames may cause explosion.
- Use original accessories only.
- Do not install this product where it will block the driver's view of the road or the deployment of the airbag.
- Keep your attention on the road. Do not operate the controls of this product while driving.
- Ensure the camera lens is kept clean and there is nothing blocking the lens.
- Setup time and date accurately before using this product.
- Do not use the charger if the cord is damaged or broken.
- Remove this product from your vehicle when not in use for a long period.
- Keep out of reach of children.
- Use clean, soft cloth to clean. Do not use any corrosive cleaner/oil to clean.
- The Company is NOT responsible for the loss of any data/content during operation.

Inserting Memory Card

⚠️ Do not remove or insert microSD / TF card when this product is powered on, which may damage the card.

For reliable operation, use a Class 10 microSD / TF card. For a 64GB/128GB card, format it before using. It is recommended to format the card regularly.

Installing Your DashCam

⚠️ Never install this product while driving.
- Install this product near the rear-view mirror to obtain the best open-field view. Do not install in a location that will obstruct your required driving view.
- Make sure that the lens is within the wiping range of the windshield wiper to ensure a clear view even when it rains.
- Do not touch the lens with your fingers. Finger grease may be left on the lens and will result in unclear videos.
- The mount is adhesive and may be destroyed if it is removed from the windshield.

1. Insert a microSD / TF card with the gold contacts facing the screen side of the DashCam. Push the card until it clicks into place.
2. To remove the card, gently push its top edge inward until it clicks, and then pull it out of the slot.

1. Attach the DashCam onto the mount.
2 Select a location on the windshield near the right bottom corner of the rear-view mirror, clean with clear water and wait until fully dry.

3 Remove 3M adhesive sticker and firmly affix the mount onto the windshield. Alternatively, cover the suction mount onto the windshield and rotate the lock as indicated.

4 Use the crowbar to press and hide the charging cable into the seams and weatherstrips around the edge of the dashboard.

5 Adjust the lens viewing angle to ensure that it is aligned with the road ahead, then rotate the fixing knob to fasten.

---

Connecting to Power

1 Connect the car charger and DashCam by using the charging cable.

2 Plug the other end of the car charger to your vehicle’s cigarette lighter socket.

3 Once the car engine is started, DashCam will automatically power on and start recording. Once the car engine is shut down, DashCam automatically saves the recording and turns off within 30 seconds.
Using Your DashCam

⚠️ As a driver, you have full responsibility to drive safely and adhere to all applicable traffic regulations.

Record Videos

1. When connected to a car charger, DashCam automatically starts recording and a red dot flashes on the screen. The current recording duration is displayed, and the current date and time is displayed.

2. To enable / disable the audio recording, press 🎧.

Protect the Current Recording

By default, DashCam uses a sensor to automatically detect accidental collisions and protect the video file with duration of 30 seconds, and ⚠️ is displayed. This indicates that those recordings have been locked and will not be overwritten by new video clips.

To protect the current recording manually, press ⌘️.

Playback Videos

⚠️ The DashCam stops recording while viewing videos or settings.

1. Press 🎬 to view all saved videos.
2. Select a video to playback.

Specifications

Specifications are subject to change without notice.

Screen: 3” LCD color TFT (960 x 240)
Camera sensor: Sony Exmor IMX 323
Camera lens: wide-angle lens 145°
Chipset: Ambarella A12
Power input: 5V = 1A
Max video resolution: 1080P 30FPS (1920x1080)
Video clip format: .MP4
Battery capacity: 470mAh
Operating temperature range: -20°C to 70°C / -4°F to 158°F
Storage temperature range: -30°C to 85°C / -22°F to 185°F
Weight: Approx. 102 g / 3.6 oz
Size: 99*30*55 mm / 3.9*1.2*2.2 in

FAQ

1. Can not record?
   • Check if the memory card is inserted properly and there is enough free capacity.
   • Check the battery level.

2. Blurred image?
   • Use a clean, soft lens-cleaning cloth to gently clean the lens.

3. Malfunction or crash?
   • Press and hold the POWER button for at least 8 seconds.

4. Blank screen?
   • The screen saver is activated. Change settings to “Off” if required.

5. How to enable parking monitor?
   • Press , select “Parking Monitor” > “ON”.

6. Worry about the memory card is full?
   • Continuous loop recording allows to overwrite the old unlocked files.
Notice

This product complies with the radio interference requirements of the European Community.

This product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Follow local rules and never dispose of the product and rechargeable batteries with normal household waste. Correct disposal of old products and rechargeable batteries helps prevent negative consequences for the environment and human health. Removal of the built-in battery invalidates the warranty and may destroy the product. Always bring your product to a professional to remove the built-in battery.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio / TV technician for help.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
