Grids possible depending on
handle length and grid design
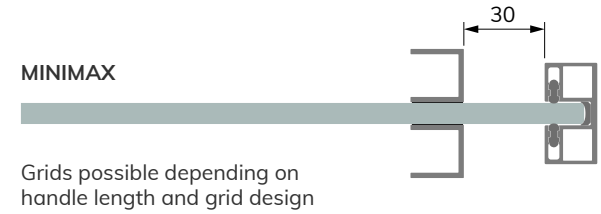

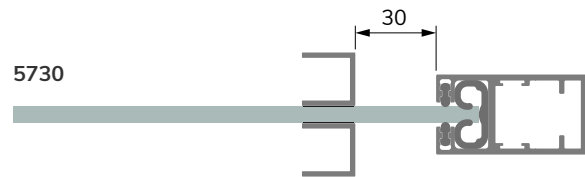

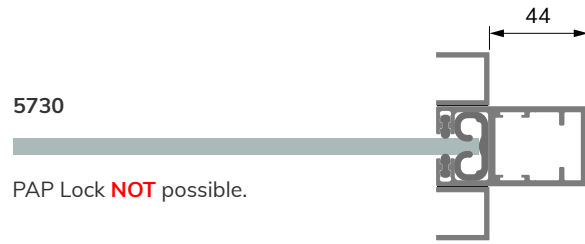

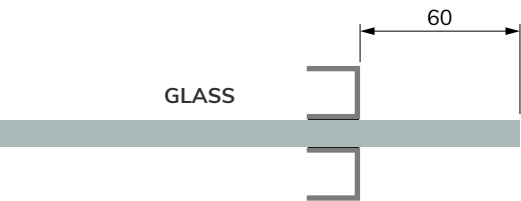

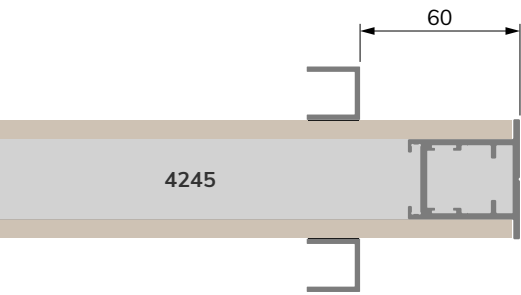

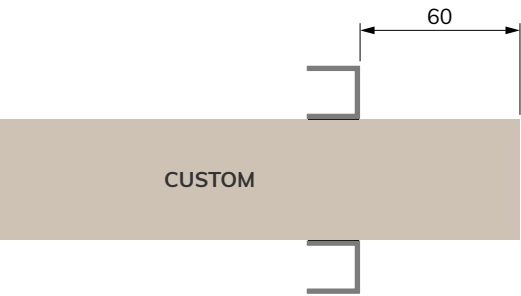

joint dimension

Never mount the handle flush with any door type:
- Joint dimensions need to increase
- NOT possible with PAP doorjambs

Place end caps to hide saw cuts and to cover sharp edges.
Apply a drop of glue to the back side when mounting.

DEGREASE SURFACE BEFORE
MOUNTING DOORGRIP!

Remove the backing strip from
the double sided tape
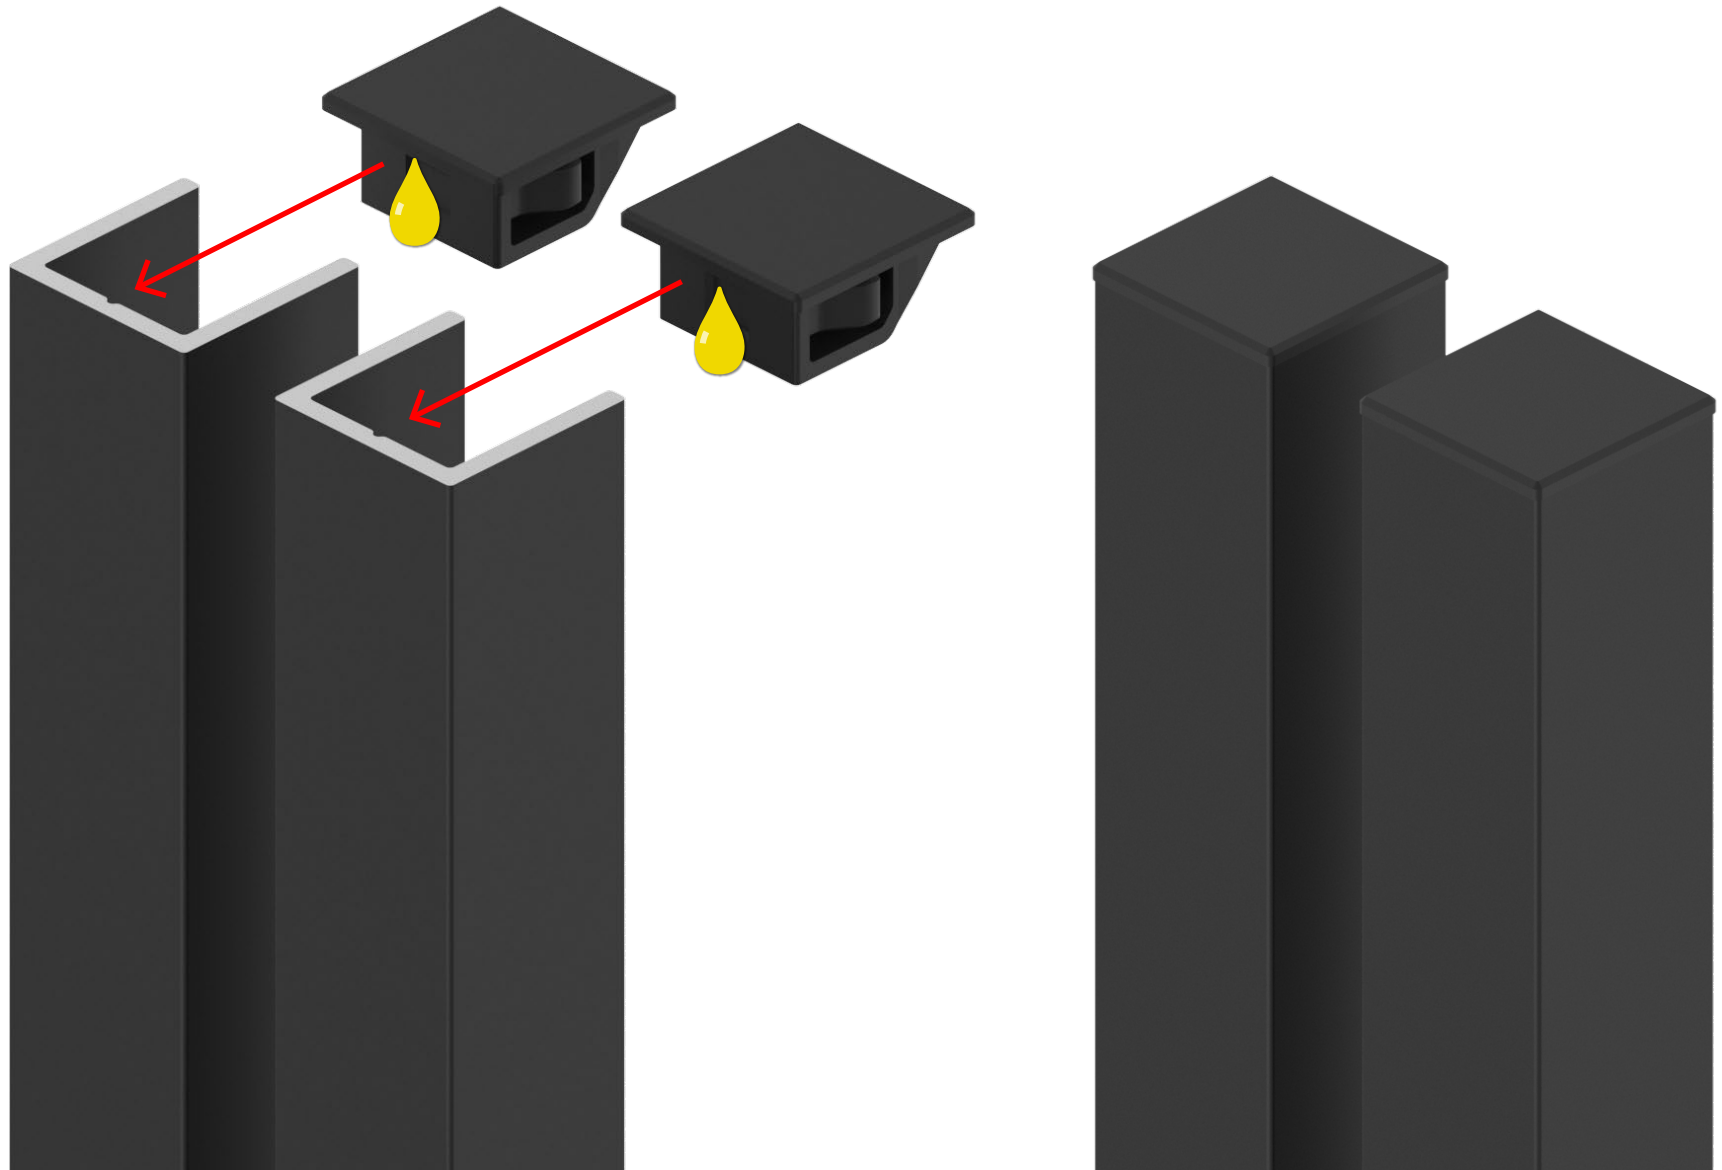

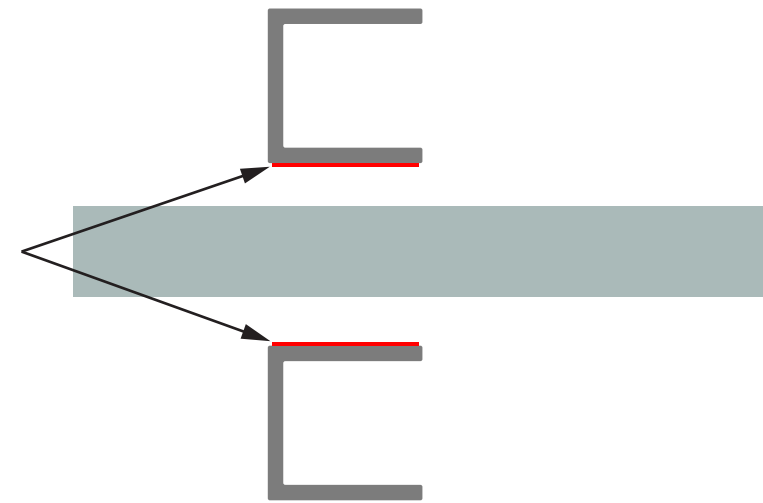

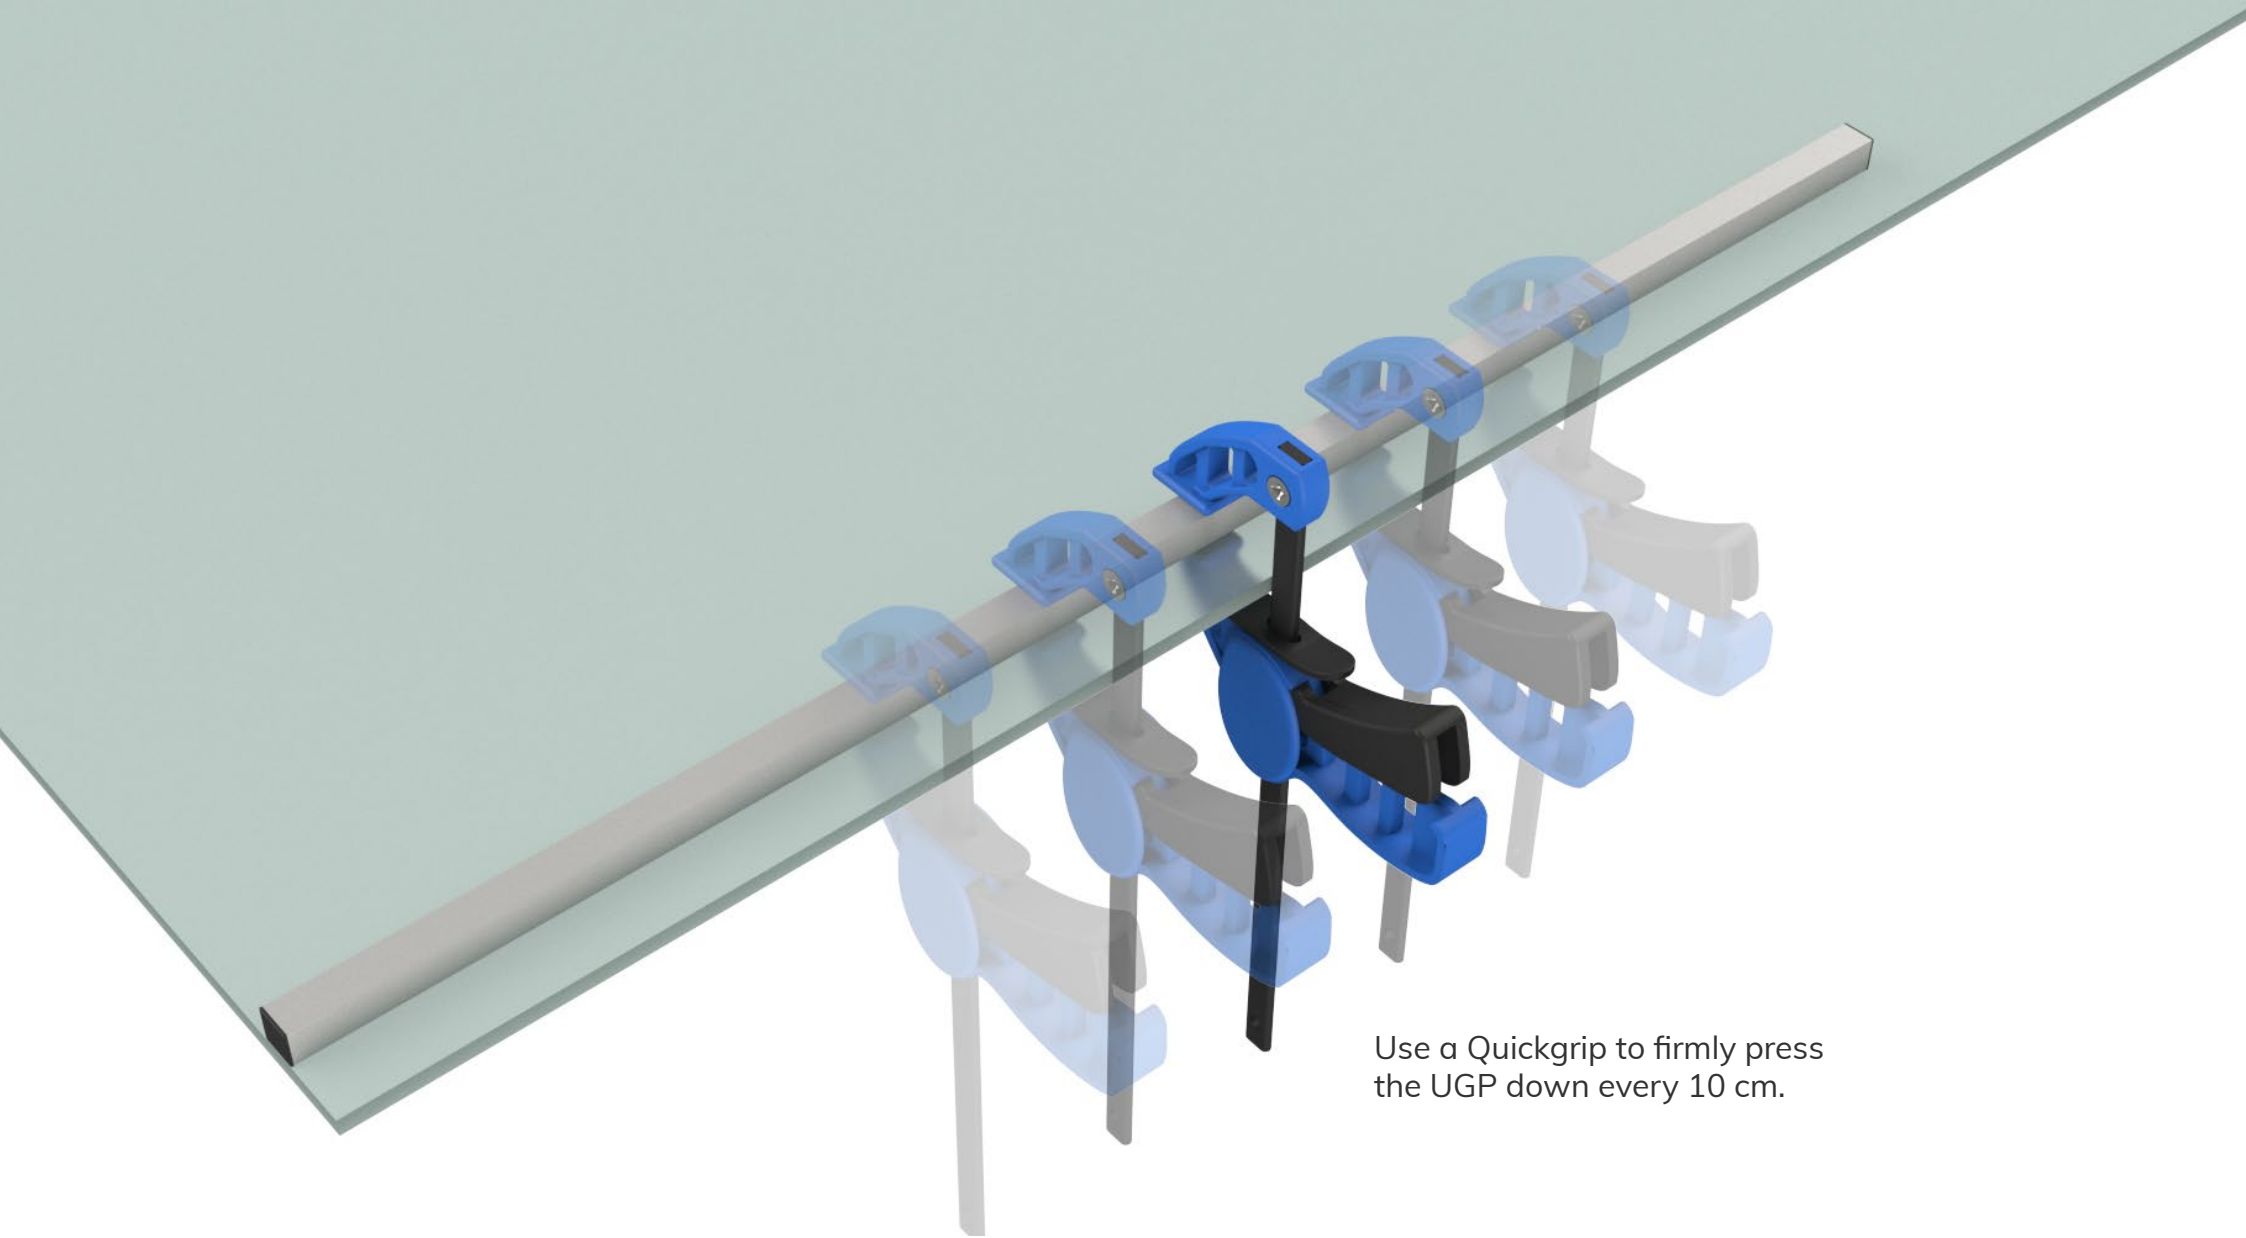

UGP is mounted with double
sided tape onto the door panel.

DEGREASE SURFACE BEFORE
MOUNTING DOORGRIP!

Carefully place the UGP
at the desired location.

Use a Quickgrip to firmly press the UGP down every 10 cm.

Repeat for the UGP on the other side of the door leaf.

For optimal bonding, don't pull the UGP for at least 24 hours!
