## Door hardware designed for local craftsmen

Portapivot offers personalized **made-to-measure door hardware to local craftsmen** with worldwide shipping. The website is set up as a **B2B E-shop**, with 3D configuration tools in the shop pages that can be accessed by anyone interested in the systems possibilities.

The **tailormade** “Portapivot 6530 XL” example used for this presentation, includes all the necessary hardware for **easy self-assembly and on-site installation**.

For shipping & economical purposes, the necessary tempered or leavened safety glass sheet should be purchased at a local glass supplier. This modus operandi **combines our engineering, technology & design capabilities with local suppliers, experience and craftsmanship**.

# Configure Portapivot 6530

Visually configure the desired pivot door by selecting the appropriate dimensions and options like color, door grips and grid profiles.

The slider underneath the image allows you to open the door to assess the pivot point and have a better view at the handles on the door.

By right clicking on the image you can save the configured door.

bronze finishing

aluminium finishing

## Compact packaging for easy shipping & transportation

The aluminium profiles are inserted into a firm cardboard square cylinder tube, which **offers perfect protection** and remains stackable. The included assembly accessories such as rubber, corner joints, screws, door grips and the pivot hinge set are placed in a second cardboard box. The cardboard tube will weigh around 25 kg in this example and the square box will weigh around 5kg.

# Suggested retail prices in EU - Portapivot 6530 & 6530 XL

Glass is not provided by PortaPivot and should be purchased by your local contractor/installer

All prices are exclusive of any tax, assembly & installation fees

## Portapivot 6530 frame + assembly accessories (6mm clear tempered glass is included for a price example of a finished door)

## Portapivot 6530 XL frame + assembly accessories (6mm clear tempered glass is included for a price example of a finished door)
