Information as to documentation required to suit destination or market.

.....
.....
.....

General terms:

Our packing service will include storing customer's own bottles, raw honey, making samples for statutory period if required, warming of crystallized honey, moisture and P-fund colour grading certificates, packers certificate of conformance.

Note: We do provide a full private label service and a separate enquiry form is available on our web site.

We have insurance cover for the goods whilst at our warehouse. We reserve the right to independently have testing done to confirm the quality and type of honey given to us to pack. Losses of honey in the packing process are minimal but will be estimated in each packing agreement. Packing clients can have their representative attend our bottling room during packing as an observer but only by appointment.
