Simplify business operations and safeguard your documents

Easily manage your Brother network-connected products from one central location using **BRAdmin Professional Software**.

This network management tool allows **remote configurations**, **monitoring of useful information** such as page count, toner and drum status. With the option of setting print quota of each user, you can better **control printing cost**. Instant **notification of printer downtime** also lets you attend to the problem before it impacts productivity. What's more, this software features a **suite of security solutions** to assure you of your documents' confidentiality.

Secure Function Lock 3.0
gives greater control over group or individual usage by limiting printer functions.

Print Archive
saves a PDF copy of every print job for easy E-Documentation.

Near Field Communication (NFC)
card reader activates print jobs without the hassle of a password.
Works with selected NFC cards.

Internet Protocol Security (IPSec)
encrypts print jobs from the user's computer to the printer.

Secure Reset
removes stored data when reverting the machine to its original settings.

Active Directory
enables easy central management of user login authentication in an organisation.
