New Product Alert - RespiraFix

Introducing our latest product RespiraFix has been designed with an all natural herbal extract plus Vitamin C to support the respiratory system. It is especially useful in conditions such as asthma, COPD, chronic coughing, pneumonia, swelling and inflammation of the bronchial tubes.

Many of these herbs and nutrients have been chosen specifically not only for their individual actions, but also how they work together in the prevention and management of these conditions.

and can be in the warmer months when pollen from trees or grasses are present.

Clinical signs

Horses from the age of 2 and above but is more common in older horses. Depending on the severity of the condition the signs and symptoms can differ. Horses will generally start off with a mild cough that is intermittent and their respiratory rate slightly increases. Their capacity for exercise will be reduced and they will show an increased respiratory rate.

Breathe is an all natural herbal and herbal extract combination to support respiratory function. The formula has antitussive, anti-inflammatory, mucilaginous and antibacterial properties to support soothing and healing of the airways and encourage normal respiratory function.

- **Assists with respiratory function**
- **Ideal for horses stabled for long periods**
- **Suited to horses in dusty environments**
- **Ideal for horses who may be coughing**

CHECK OUT THE NEW RESPIRIFIX FOR HORSES DIAGNOSED WITH ASTHMA, COPD, CHRONIC COUGHING, PNEUMONIA, SWELLING AND INFLAMMATION OF THE BRONCHIAL TUBES.

Chronic Obstructive Pulmonary Disease (COPD), Heaves, Alveolar Emphysema, Equine Asthma. No matter what name or terminology you use they all refer to allergies and inflammation of the lungs that impairs breathing. They represent chronic respiratory conditions due to organic dust allergens in the environment causing the horse to develop pulmonary hypersensitivity. It is a common cause of the cough in the horse.

Commonly found in horses that are in dusty environments, stabled, mouldy hay or bedding

Our pure certified oral grade flaxseed oil is cold pressed. Flaxseed oil has one of the highest concentrations of plant-based essential fatty acid omega 3 alpha linolenic acid ALA is converted to EPA and DHA in the body, which are essential fatty acids that are beneficial for optimum health. Omega 3 fatty acids improve general health and well-being. It contains phytosterols with the added benefit of improving skin and coat health. Flaxseed oil having a high level of omega 3 essential fatty acids can also help to reduce inflammation.
