

daily

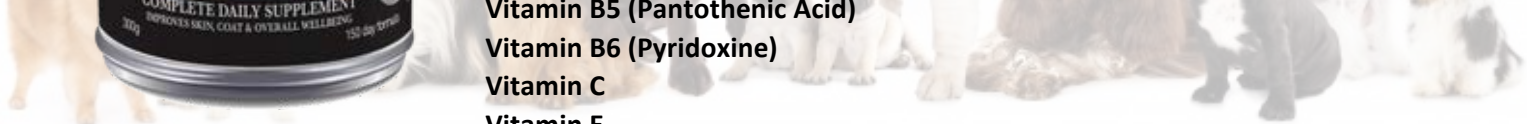

Ingredient Highlights

St Mary's Thistle 10:1
Marigold Extract 10:1
Green Tea extract 10:1
Garlic Extract 7:1
Peppermint extract 10:1
BioEquus

Nutritionals

Calcium
Phosphorus
Sodium
Chloride
Potassium
Magnesium
Zinc
Copper
Selenium
Iodine
Manganese
Iron
Chromium
Cobalt
Vitamin A
Vitamin B1 (Thiamine)
Vitamin B2 (Riboflavin)
Vitamin B3 (Niacin)
Vitamin B5 (Pantothenic Acid)
Vitamin B6 (Pyridoxine)
Vitamin C
Vitamin E
Folic Acid
Choline
Sacchromyces cerevisiae
boulardii Probiotic/Prebiotic

Tissue Salts re-establish balance

Don't get mineral tissue salts confused with crude minerals. Biochemical tissue salts, or cell salts, are mineral salts that exist in the cells and play a critical role in cellular metabolism. The salts are administered clinically in very small doses and are prepared in a way similar to homeopathic remedies. The use of mineral tissue salts date back to the 1800's. PetArk uses these mineral salts in most of their formulas, along with specific, organic herbs and herb extracts, amino acids, vitamins and trace elements.
