

FIBER LOUNGE CHAIR - WOOD BASE

ISKOS-BERLIN ON THE DESIGN “One of the most difficult and noble disciplines of design is to create simple, well-functioning and almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Lounge Chair to do just that through a clear and sculptural language that refuses to compromise on comfort, embracing the body of its user. With a light and almost hovering appearance, the design joins soft, friendly curves with an innovative wood fiber composite, giving the Fiber Lounge Chair a unique expression and inviting seat.”
