

LOFT ARMCHAIR

THOMAS BENTZEN ON THE DESIGN “The Loft Chair combines the complementing opposites of robustness and elegance through materials—its wooden seat and metal frame—with a soft, industrial appeal. The design features an archetypical look for a feeling of familiarity while the subtle details, such as its sturdy back legs, gives it a unique expression. The design fits seamlessly into any spatial context while providing maximum comfort to its user.”

DESCRIPTION

The Loft Chair exemplifies honest, simple design thanks to an expression inspired by industrial design. The design features contrasting materials with its frame in powder coated steel that is offset by the soft plywood on seat and back, molded to embrace the user's body. Here, the design comes with elegant armrests for added comfort.

MATERIAL

Powder coated steel frame with back, seat and armrest in formpressed layer glued veneer, with beech core veneers and an oak surface veneer. Waterbased lacquer.

For Stained Dark Brown version only: Back and seat with water-based lacquer. Please note that slight color variations can occur due to the inherent characteristics of the material.

CLEANING AND CARE

Wood and veneer surfaces: Wipe off with moist cloth and remove excess liquid with dry cloth. This product can be cleaned with alcohol disinfectant. However, please note that as wooden products will get patina where the surface color can slightly fade. If cleaning is uneven, this may become even more apparent, yet the lacquer will stay in place. For wooden products in lighter colors, the patina will be less apparent.

Textiles: Remove non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water. Finally, dab the surface with clean water. See kvadrat.dk or nevtex.com for further cleaning and maintenance instructions for your chosen textile.

SPARE PARTS

Pre-mounted plastic glides included. Felt and plastic glides can be purchased separately.
