

# LOFT COUNTER & BAR STOOL

**THOMAS BENTZEN ON THE DESIGN** “Being a natural extension of the Loft design, the Loft Bar Stool mixes the complementing opposites of robustness and elegance through materials—wood for the seat and back, metal for the frame—with a soft, industrial appeal. The bar stool has an archetypical look that gives a feeling of familiarity while the subtle details, such as its sturdy back legs, gives it a unique expression. Though having the comfort of a full seat and back, the bar stool comes with a small footprint thanks to its legs being positioned neatly under the seat, making the design a natural fit for all environments while providing maximum comfort to its user.”

## DESCRIPTION

Combining the ideas of Scandinavian materiality and industrial design, the Loft Counter & Bar Stool features contrasting materials with its frame in powder coated steel that is offset by the warmth of wood with clear or colored PU lacquer.

## MATERIAL

Back and seat in veneer with a beech core and an oak veneer top with water-based lacquer. Frame in powder coated steel.

For Stained Dark Brown version only: Back and seat with water-based lacquer. Please note that slight color variations can occur due to the inherent characteristics of the material.

## CLEANING AND CARE

Wipe off with moist cloth and remove excess liquid with dry cloth. This product can be cleaned with alcohol disinfectant. However, please note that as wooden products will get patina where the surface color can slightly fade. If cleaning is uneven, this may become even more apparent yet the lacquer will stay in place. For wooden products in lighter colors, the patina will be less apparent.

## SPARE PARTS

Pre-mounted plastic glides included. Felt and plastic glides can be purchased separately.
