# Plinth Cubic

BY NORM ARCHITECTS

Over centuries, the plinth has been a much mused-over object. With this project Danish studio Norm Architects set out to rethink the uses of the plinth and to reveal the natural beauty of marble. The result is a series of podiums with multiple uses in the home, office or showroom. Plinth is available in six sizes. The cube makes a perfect bedside table or side table. Profiling the beauty of natural materials and uncompromising craftsmanship, each design is precision assembled to reveal the inherent beauty and uniqueness of the material. Each piece of stone and marble will therefore vary and display differently.
