## THE BOATHOUSE UNISUIT SOLUTION

DYNAMIC FLEXIBILITY • RESILIENT STRETCH • WICKS MOISTURE • HIGHLY BREATHABLE • EASY CARE

HOW DOES IT WORK? Moisture and high relative humidity next to the skin cause discomfort. Polartec® Power Stretch® keeps the skin dry through three complementary mechanisms: 1) The fabric is highly breathable and does not restrict the movement of moisture vapor. 2) "Touch points" on the fabric inner surface draw off the sweat. Sweat is wicked off the skin to the outside of the fabric where it spreads rapidly for evaporation. 3) When the sweat reaches the outside of the fabric, it spreads out to many times its original surface area, enabling it to dry at least two times faster than cotton.

## DESIGNED BY THE BEST, FOR THE BEST

New for 2016, the Pinnacle II was developed one-on-one with America's top rowers. Superior refinements in fabric, fit, and technology make this ours, and your, best unisuit ever. As seen in Rio and the world's most prestigious rowing events, the Pinnacle II is the official race suit worn by the USRowing Olympic, Senior, U23 and Junior World Championship Teams.

## WHY IS IT IMPORTANT TO ROWERS?

The repetitive motion associated with rowing increases the chance of chafing and discomfort. With the latest adjustments, the irritation is eliminated and the ability to perform is improved. The design is made to be more flexible and comfortable, for maximum mobility.

### POLARTEC® POWER STRETCH® COLORS

	Black		Victory
	Red		Cardinal
	Athletic Gold		Maroon
	Forest		Vegas
	White		Purple
	Navy		Orange
	Royal		

Above are the Men's & Women's JMS Unisuit (RWM755 & RWW741). The improvements listed above are available in ALL our unisuit styles.
