INNOVATIONS

CHROMED STEEL SERIES

The Chromed Steel series of vacuums are general purpose vacuums that can be used in wet or dry applications and include HEPA critical filtration. They can be used for general cleaning or to collect dust from produced from grinding tools. This series is commonly used in schools, manufacturing, offices and construction environments.

The steel series is made of a durable, heavy duty and chemical resistant steel tank that won't chip, rust or crack. It has powerful suction with single and double motors and can increase productivity with an optional front mount squeegee. The vacuums innovative designs feature a stable and convenient no-tip design that utilizes a transport handle and two large wheels in the back with dual front casters and its tank can be removed for easy emptying.
