

# EC+ PLUS

## Wash Water Flocculant

*For Use With The Water Maze Innovator Series*

**Anionic Flocculant**

**Extremely Effective**

**Clarifies and Removes Solids from Water**

### **An Anionic Flocculant For Use In Electrocoagulation and Chemical Coagulation Systems**

Water Maze EC+ PLUS is an anionic flocculant for use with the Water Maze Innovator Series water treatment systems. It is extremely effective in wash water clarification and solids

removal. When added continuously, after the water has been treated by electro-coagulation or the Water Maze CoAg+, EC+ PLUS promotes agglomeration of the coagulated suspended solids into larger

particles, which are then easily removed from the water by settling and filtration.

#### **Directions for Use**

MIX WELL BEFORE USING. Feed continuously via the chemical feed system by using the chemical metering pump included with the Water Maze EC+ Wastewater Treatment System. Prevent from freezing. Store in a cool, dry place. Should the EC+ PLUS freeze, allow to thaw completely and then mix thoroughly before using.

#### **Caution**

Water in contact with spills will cause slippery floors. In case of small spills do not flush with water. Contain spill with absorbent material such as commercial floor dry, clay or commercial cat litter and dispose of properly (see MSDS).

#### **HMS RATING**

<b>Health</b>	1	<b>Degree of Hazard</b>	4 - Very High
<b>Flammability</b>	1		3 - High
<b>Reactivity</b>	0		2 - Moderate
<b>Personal Protection</b>	B		1 - Slight
			0 - Insignificant

**EC+ Plus Flocculant**  
55 Gallons: #8.725-508.0

**EC+ Plus Flocculant**  
5 Gallons: #8.940-586.0

#### **SAFETY AND FIRST AID**

##### **CAUTION**

Read the Material Safety Data Sheet before using this product. Keep out of the reach of children. May cause eye irritation. Harmful if swallowed. Use proper personal protective equipment including eye protection and gloves when handling this product. Wash thoroughly after handling.

##### **FIRST AID**

**Eyes:** Flush immediately with water for at least 15 minutes. Get medical attention immediately.

**Skin:** Wash with plenty of water. Get medical attention if irritation develops. Launder contaminated clothing before reuse.

**Internal:** If conscious, give large quantities of water or milk. If not vomiting, induce vomiting by touching finger to back of throat. Get medical attention immediately.
