

QUICKER FLAT SURFACE CLEANING WITH LESS FATIGUE

The Landa Kärcher Group Water Jet pressure washer accessory.

The market's premier surface cleaner, the Water Jet is perfectly suited for cleaning a variety of flat surfaces. It attaches easily to a hot or cold water pressure washer to "mow" the grime away.

Industrial strength for long life and low maintenance, the Water Jet has a full 22-inch cleaning path and a stainless steel spray bar. Using two precision spray nozzles that spin at an astounding 2000 RPM, the Water Jet is ideal for cleaning garages, parking lots, sidewalks and entry ways. It also has a handy trigger gun and wand to spray away excess debris.
