# ARCTIC ECO GREEN®

**Arctic ECO Green® Icemelter** is a powerful all natural deicer that is gentle on the environment, the surfaces it is applied to and harmless around children and pets. This icemelter was designed for the organically inclined.

## ICEMELTER

- Contains Natural Ingredients :** Arctic ECO Green® is made from all natural wholesome ingredients. Each granule is comprised of several components with the use of a unique multi-layered coating process, making this product much more effective than common blended products.
- Gentle on the Environment :** Arctic ECO Green® contains minerals that are essential to human life, making it gentle on the environment, and its eco systems. It contains potassium, a required nutrient for plant life, making it less harmful to vegetation.
- Harmless Around Children & Pets :** Arctic ECO Green® is safe to use around children and pets. Gloves are not required. The product does not contain any calcium chloride, so it will not burn the paws of pets as they walk on it. WHMIS exempt in Canada. OSHA exempt in USA.
- Fast Acting & Powerful to -29°C (-20°F) :** Arctic ECO Green® is extremely powerful due to its synergistic formulation. Each granule is multi-layer coated, with all the components working together in unison to quickly and effectively melt away the ice.
- Safer on Concrete :** Arctic ECO Green® does not chemically affect quality air entrained concrete or treated wood. It helps to keep the ice melted longer than other icemelters, which assists in the prevention of damage to concrete caused by the freeze-thaw cycles.

- Cost Effective Green Color :** Arctic ECO Green® is dyed a bright green color. This dye is environmentally-friendly, and when used as directed does not stain the surface of your walkway or road surface. The dye helps the user to economically spread the icemelter in an even amount and allows the user to see where the product has been distributed. The green color helps to prevent overspreading of the product.

- Anti-corrosive Formula :** Arctic ECO Green® contains a two level anti-corrosive formula, including CMA. This helps to reduce the level of corrosiveness in the product making it a better choice to use on sensitive surfaces.

Item	Product Size	Units/Pallet	Pallet Weight	UPC
200-60010	10 lb Poly Bag (re-sealable)	225 bags	2370 lb	7-77411-60010-4
200-60012	12 lb Jug (4 / display case)	160 jugs	2150 lb	7-77411-60012-8
200-60013	12 lb Jug (40 / bulk tray pack) - <i>Special Order</i>	160 jugs	2100 lb	7-77411-60012-8
200-60021	22 lb Poly Bag	100 bags	2300 lb	7-77411-60021-0
200-60043	44 lb Poly Bag	49 bags	2250 lb	7-77411-60043-2
