

MICROBE MANNA™

ABC LAWN & LANDSCAPE CARE PROGRAM

Meet the Microbe Manna™ ABC Lawn and Landscape Care Program and enjoy a thriving lawn and landscape with minimal effort. After implementing the program and following the simple steps year over year the benefits will compound and you will use less and less inputs including our most precious resource WATER! If used as directed your lawn and landscape will naturally thrive and the dreaded cost of a beautiful lawn and landscape will diminish!

Rocky Mountain BioAg® has spent over a decade developing a lawn and landscape care program for our customers that makes taking care of lawns fun and rewarding! Don't dread the task of creating a beautiful well-nourished lawn and landscape but embrace our simple program and watch your lawn and landscapes explode with health and your neighbors turn green with envy!

We took the guess work out of having a beautiful, natural lawn and landscape! This program is as easy as learning your ABC's and is great for homeowners and commercial operations both!

Protective Equipment Needed/Suggested

Eye Protection, Dust Mask, Gloves, Closed Toe Shoes, Pants, Long Sleeve Shirt, Sunscreen, Natural and Organic Bug Repellent, and Hat.

Application Equipment Needed

Fertilizer Spreader (Broadcast, Drop or Handheld), Hand Trowel, Chapin Hose End Sprayer or Compression Sprayer, and Water Hose.

Products Needed

[Microbe Manna™ Dry Lawn and Landscape](#), [Microbe Manna™ Liquid Lawn and Landscape](#), [Microbe Manna™ Flora Lawn and Landscape](#), [Microbe Manna™ Hydrate Lawn and Landscape \(OPTIONAL\)](#), [Chapin Hose End Sprayer 16 Ounce](#) or [Chapin Hose End Sprayer 32 Ounce](#), [HydroLife C-85 Water Filter](#) or [Microbe-Lift Dechlorinator Plus](#) and [Rocky Mountain BioAg® Shot Measuring Glass](#) and [Rocky Mountain BioAg® Pint Measuring Glass](#).

Early-Spring

A - 10-20 Pounds Microbe Manna Dry Lawn and Landscape / 1,000 sq. ft.
B - 4-8 Ounces Microbe Manna Liquid Lawn and Landscape / 1,000 sq. ft.
C - 4-8 Ounces Microbe Manna Flora Lawn and Landscape / 1,000 sq. ft.
+ - 10-20 Pounds Microbe Manna Hydrate Lawn and Landscape / 1,000 sq. ft.

Mid-summer

A - 10-20 Pounds Microbe Manna Dry Lawn and Landscape / 1,000 sq. ft.
B - 4-8 Ounces Microbe Manna Liquid Lawn and Landscape / 1,000 sq. ft.
C - 4-8 Ounces Microbe Manna Flora Lawn and Landscape / 1,000 sq. ft.
+ - 10-20 Pounds Microbe Manna Hydrate Lawn and Landscape / 1,000 sq. ft.

Late-fall

A - 10-20 Pounds Microbe Manna Dry Lawn and Landscape / 1,000 sq. ft.
B - 4-8 Ounces Microbe Manna Liquid Lawn and Landscape / 1,000 sq. ft.
C - 4-8 Ounces Microbe Manna Flora Lawn and Landscape / 1,000 sq. ft.
+ - 10-20 Pounds Microbe Manna Hydrate Lawn and Landscape / 1,000 sq. ft.

*All applications can be made on the same day. First apply A with a standard broadcast, drop or handheld spreader. If using the [Microbe Manna™ Hydrate Lawn and Landscape \(OPTIONAL\)](#) combine A and + and apply. Then apply B with a [Chapin Hose End Sprayer 16 Ounce](#), [Chapin Hose End Sprayer 32 Ounce](#) or compression sprayer. Then apply C with a [Chapin Hose End Sprayer 16 Ounce](#), [Chapin Hose End Sprayer 32 Ounce](#) or compression sprayer. For superior results apply B and C separately and ALWAYS use dechlorinated water ([HydroLife C-85 Water Filter](#) or [Microbe-Lift Dechlorinator Plus](#)).

*Ensure even coverage of all products. There is no dilution ratio for B and C on lawns/turf use with enough dechlorinated water to evenly apply to desired area.

*This is a great time to also treat your trees, shrubs, bushes, flower beds, etc. If applying B and C to sensitive landscaping, it is better to use more dechlorinated water for application.

*If applying Microbe Manna Dry to trees, shrubs, bushes, flower beds etc. apply at a rate of 1 pound (Approximately 3 cups) per 25 sq. ft. 3 times per year (early-spring, mid-summer, late-fall).

*If applying Microbe Manna Hydrate to trees, shrubs, bushes, flower beds etc. apply at a rate of 1/2 pound (Approximately 1 cup) per 25 sq. ft. 3 times per year (early-spring, mid-summer, late-fall).

Coverage Rates

1 Acre = 43,560 sq. ft.

A - Microbe Manna Dry Lawn and Landscape

- 5 Pound Bag - 250 sq. ft. to 500 sq. ft.
