Slider Holder

**Cut out window**

put glue here

glue to back of flap A

**Slider Word Drill Lesson 36 br and tr blends**

Cut on the dotted lines. On the holder, fold on the gray lines. Cut out the gray windows. Put glue on the flaps with the apples and press onto the back of the front flap. The slide should move freely in the holder. If it is too tight, trim from the top. This will keep the letters on the slide in line with the letters on the holder.
