Coverage

Our Factory applied Tuff Toe™ covers a standard area of the cleat as you can see on several pictures on our site. We stay away from the flex points of the cleats to allow freedom of movement and eliminate extra wear and tear on the leather upper. If you need anything different just simply mark the cleat and we will follow any outline. **HOWEVER**, please note that if you ask us to cover flex points of the cleat we will not be held responsible for the loss of flex or any damage this may cause the cleat or Tuff Toe. Covering the flex points may cause the Tuff Toe to pull away from the upper and in some cases it will cause seams to tear and/or the leather to separate.
