

## AG-15

- Neck mounted
- Uses steel s-clips for easy mounting and removal
- Steel and 304 Stainless Steel models are slot operated
- Aluminum model is lever operated

AG-15

metric sizes

air balancing

### AVAILABLE MODELS:

- AG-15 / Galvanized Steel
- AG-15-AA / Aluminum
- AG-15-SS / 304 Stainless Steel

### FINISH

Standard Finish - #04 Mill

See website for Specifications

### OVERVIEW

#### Square & Rectangular Dampers / Opposed Blade

Effective air balancing begins with the balancing provisions that are designed into the HVAC system. Titus balancing devices are easy to select and specify. They are designed for quick access and adjustment and are engineered for the least possible noise, turbulence and air resistance. Titus makes available published flow factors for all Titus diffusers. This allows precision balancing to be performed in the field with accuracy based on prior test results.

Note: Available only for 300/350 Series, 50F, 8R and 8F models

All dimensions are in inches
