## Maps

British Columbia	62
California	80
Washington and Oregon	93
Eastern United States	169
Florida	270
Montana and Idaho	282

Locations of sighting and track reports are plotted on the maps as accurately as possible, but in many cases no precise location is known, and in others there are too many reports from a locality to place them all correctly.

The map on the facing page shows the number of reports from each state and province in the author's file as of November, 1977. Locations of reports are shown only for those states and provinces not covered by more detailed maps.

Maps drawn by Donald MacCallum, Harrison Hot Springs, British Columbia.
