List of Tables	7
List of Figures	11
Acknowledgments	13
Preface	14
PART I	INTRODUCTION	
Chapter 1	Introduction <i>James G. Dickson</i>	17
PART II	HISTORY	
Chapter 2	Early History <i>James G. Dickson</i>	20
Chapter 3	Natural Resources—Into the 20th Century <i>James G. Dickson</i>	31
PART III	THE FORESTS	
Chapter 4	Defining the Forests <i>James G. Dickson and Raymond M. Sheffield</i>	37
Chapter 5	Sensitive Plant Communities <i>Joan L. Walker</i>	48
PART IV	MANAGING FORESTS FOR WILDLIFE	
Chapter 6	Principles of Landscape Ecology for Conservation of Wildlife and Biodiversity <i>Frank R. Thompson, III</i>	72
Chapter 7	Managing Forests for Wildlife <i>James G. Dickson and T. Bently Wigley</i>	83
PART V	GAME SPECIES	
Chapter 8	White-tailed Deer <i>Karl V. Miller</i>	95
Chapter 9	Wild Turkey <i>James G. Dickson</i>	108
Chapter 10	Northern Bobwhite <i>L. Wes Burger, Jr.</i>	122
Chapter 11	Ruffed Grouse <i>Daniel R. Dessecker</i>	147
Chapter 12	Mourning Dove <i>Ralph E. Mirarchi</i>	156
Chapter 13	American Woodcock <i>R. Montague Whiting, Jr.</i>	167
Chapter 14	Squirrels <i>Jacob L. Bowman and Michael J. Chamberlain</i>	176
Chapter 15	Rabbits <i>James G. Dickson</i>	186

Chapter 16	Wild Hogs	191
	<i>James G. Dickson, John J. Mayer, and John D. Dickson</i>	
Chapter 17	Waterfowl	209
	<i>Mickey E. Heitmeyer</i>	
PART VI	LARGE CARNIVORES	
Chapter 18	American Black Bear	224
	<i>Michael R. Pelton</i>	
Chapter 19	Florida Panther	234
	<i>Joseph D. Clark</i>	
Chapter 20	Red Wolf	240
	<i>Barron A. Crawford, Christopher F. Lucash, and V. Gary Henry</i>	
PART VII	FURBEARERS	
Chapter 21	Carnivorous Furbearers	248
	<i>Bruce D. Leopold and Michael J. Chamberlain</i>	
Chapter 22	Omnivorous Furbearers	278
	<i>Michael J. Chamberlain and Bruce D. Leopold</i>	
Chapter 23	Herbivorous Furbearers	293
	<i>Jeanne Jones and Bruce D. Leopold</i>	
PART VIII	NONGAME COMMUNITIES	
Chapter 24	Red-Cockaded Woodpecker	309
	<i>Ralph Costa</i>	
Chapter 25	Bird Communities of Southern Forests	322
	<i>William C. Hunter, James G. Dickson, David N. Pashley, and Paul B. Hamel</i>	
Chapter 26	Terrestrial Small Mammals	350
	<i>James G. Dickson</i>	
Chapter 27	Bats	359
	<i>Michael J. Harvey and David A. Saugey</i>	
Chapter 28	Reptiles and Amphibians	372
	<i>J. Whitfield Gibbons and Kurt A. Buhlmann</i>	
PART IX	SPECIAL CONSIDERATIONS	
Chapter 29	Resolving Wildlife Conflicts	391
	<i>Rick D. Owens</i>	
Chapter 30	Wildlife Recreation	407
	<i>H. Ken Cordell, John C. Bergstrom, R. Jeff Teasley, and Jeremy Thomas</i>	
PART X	CONCLUSIONS	
Chapter 31	Conclusions	419
	<i>James G. Dickson</i>	
	Common and Scientific Names of Animals in Text	425
	Common and Scientific Names of Plants in Text	430
	Literature Cited	433
	Index	473

List of Tables

Chapter 4	Defining the Forests	
1.	Percentage of timberland in southern states by forest type.	44
Chapter 5	Sensitive Plant Communities	
1.	Estimates of ecosystem loss from Noss et al.	51
2.	Sensitive communities in the South.	52
3.	Federally listed species associated with longleaf pine ecosystems and direct and indirect habitat factors cited as reasons for listing.	57
4.	Endemic and near-endemic plant species of limestone cedar glades in the Interior Low Plateau of central Tennessee, northern Alabama, and southern Kentucky	63
5.	Rare and endemic plants found on grassy balds	66
6.	Characteristics of three coastal plain depression habitats.	68
Chapter 6	Principles of Landscape Ecology	
1.	Differences in landscape composition among forest management options.	75
Chapter 8	White-tailed Deer	
1.	Estimated white-tailed deer harvest and population by state.	96
2.	Woody, herbaceous, and fruit-producing plants important to southern deer, and season of importance.	100
3.	Number of deer hunters and hunting statistics by state, 1995-1996.	106
Chapter 9	Wild Turkey	
1.	Estimated wild turkey harvest and population by state.	112
Chapter 10	Northern Bobwhite	
1.	Decline of northern bobwhite populations (percentage/year) in the southeastern United States, 1966-1996.	125
2.	Number of hunters, hunter days, and harvest of northern bobwhite for Southeast states based on state-level hunter mail surveys, 1980-95.	126
3.	Seasonal and annual survival of northern bobwhite from studies throughout the range.	127
4.	Forty-five most important bobwhite foods in the Southeast as measured by frequency of occurrence and percent volume in 27 food habits studies reviewed by Landers and Johnson (1976).	134
Chapter 11	Ruffed Grouse	
1.	Drumming male ruffed grouse densities in the southern United States and, for comparison, in aspen communities of the Great Lakes region.	150
2.	Estimated Ruffed Grouse harvest by state.	150
3.	Cooperating hunter flush rates, Tennessee, Virginia and North Carolina.	150
Chapter 12	Mourning Dove	
1.	Mourning dove harvests, number of hunters, and average seasonal bag of states in the South, 1988-89. Modified from Tomlinson et al. (1994).	161
Chapter 14	Squirrels	
1.	Estimated gray and fox squirrel harvest by state.	184
Chapter 15	Rabbits	
1.	Estimated rabbit harvest by state.	187

Chapter 17 Waterfowl

1. Average breeding population estimates (in thousands) of the 10 most common duck species from traditional survey areas during the 1950s to 1990s.213

Chapter 18 American Black Bear

1. Population estimates and harvest of black bears in the South, 1970 and 1996.228

Chapter 21 Carnivorous Furbearers

1. Morphological characteristics of adult male and female bobcats in the southeastern United States.249
2. Morphological characteristics of adult male and female coyote in the southeastern United States.250
3. Morphological characteristics of adult male and female red fox in the southeastern United States.251
4. Morphological characteristics of adult male and female gray fox in the southeastern United States.251
5. Morphological characteristics of adult male and female river otter in the southeastern United States.252
6. Morphological characteristics of adult male and female long-tailed weasels in the southeastern United States.252
7. Morphological characteristics of adult male and female mink in the southeastern United States.253
8. Number of bobcat harvested in the southeastern United States from 1970-1991. . . .255
9. Number of coyote harvested in the southeastern United States from 1970-1991. . . .256
10. Number of red fox harvested in the southeastern United States from 1970-1991.257
11. Number of gray fox harvested in the southeastern United States from 1970-1991. . . .258
12. Number of river otter harvested in the southeastern United States from 1970-1991. . . .259
13. Number of weasels harvested in the southeastern United States from 1970-1991. . . .260
14. Number of mink harvested in the southeastern United States from 1970-1991. . . .261
15. Reproductive characteristics of furbearers in the southeastern United States.262
16. Composition (percentage occurrence)^a of diet of bobcat in the southeastern United States.263
17. Composition (percentage occurrence)^a of diet of coyote in the southeastern United States.263
18. Composition (percentage occurrence)^a of diet of red and gray foxes in the southeastern United States.264
19. Composition (percentage occurrence)^a of diet of river otter in the southeastern United States.264
20. Home range sizes (ac) of male and female bobcats in the southeastern United States.265
21. Home range sizes (ac) of male and female coyotes in the southeastern United States.265
22. Home range sizes (ac) of male and female gray fox in the southeastern United States.266
23. Recommended trapping methods for southeastern furbearers.273

Chapter 22 Omnivorous Furbearers

1. Morphological characteristics of adult male and female raccoon in the southeastern United States.280
2. Morphological characteristics of adult male and female opossum in the southeastern United States.280
3. Morphological characteristics of adult male and female striped skunks in the southeastern United States.281

4. Harvest (number of animals) of raccoon in the southeastern United States from 1970-1991.	282
5. Harvest (number of animals) of opossums in the southeastern United States from 1970-1991.	283
6. Harvest (number of animals) of skunk in the southeastern United States from 1970-1991 (adapted from Linscombe 1993).	284
7. Reproductive characteristics of omnivorous furbearers in the southeastern United States.	285
8. Composition (percentage occurrence) ^a of diet of raccoon in the southeastern United States.	286
9. Composition of diet of opossum in the southeastern United States.	286
10. Home range sizes (ac) of male and female raccoon in the southeastern United States.	287
11. Home range sizes (ac) of male and female opossum in the southeastern United States.	287

Chapter 23 Herbivorous Furbearers

1. Morphological characteristics of adult male and female beaver in the southeastern U.S.	295
2. Morphological measurements of muskrats in the southeastern U.S.	295
3. Morphological measurements of nutria in the southeastern United States.	296
4. Reproductive characteristics of beaver, nutria, and muskrat in the southeastern U.S.	297
5. Average pelt price and annual harvest (number of animals) of beaver in the southeastern United States from 1970-1991.	297
6. Average price and number of muskrats harvested annually in the southeastern United States from 1970-1991.	298
7. Average price and number of nutria harvested annually in the southeastern United States from 1970-1991.	299
8. Recommended harvest methods for beaver, nutria, and muskrat.	306

Chapter 24 Red-Cockaded Woodpecker

1. Species using normal size and enlarged red-cockaded woodpecker cavities.	319
---	-----

Chapter 25 Bird Communities of Southern Forests

1. Abundance of nearctic-neotropical migratory birds in central hardwood forests.	325
2. Abundance of nearctic-neotropical migratory birds in loblolly-shortleaf pine forests.	326
3. Abundance of nearctic-neotropical migratory birds in longleaf and slash pine forests.	327
4. Nearctic-neotropical migrant breeding bird species present in southeastern oak-gum-cypress forests.	327
5. Regional and physiographic area priority levels assigned by the Southeast U.S. Partners in Flight Working Group.	328
6. Primary habitat associations and seasonal status among priority landbird species within forested landscapes of the Southeastern U.S.	331
Appendix 1. Population trend (PT) and population trend data quality (PTDQ) criteria for scoring Breeding Bird Survey data.	349

Chapter 26 Terrestrial Small Mammals

1. Relative abundance of captures of terrestrial small mammals in 1-year-old stands in the South.	352
2. Relative abundance of captures of terrestrial small mammals in young brushy stands (3-6 years old) in the South.	352

3. Relative abundance of captures of terrestrial small mammals in mature stands in the South.	353
--	-----

Chapter 28 Reptiles and Amphibians

1. Amphibians and reptiles native to the southern United States.	374
---	-----

Chapter 29 Resolving Wildlife Conflicts

1. Economic losses (thousand \$) in Mississippi, North Carolina, and South Carolina caused by beavers as reported to the U.S. Department of Agriculture, 1994-1996.	393
2. Estimated property losses from deer-auto collisions.	395
3. Some important wildlife diseases that may affect humans in the Southeast.	396
4. Reported cases of 5 human diseases in the Southeast for which wildlife may serve as a vector or reservoir.	397
5. Wildlife damage control methods and applications for selected wildlife species in the Southeast.	402

Chapter 30 Wildlife Recreation

1. Outdoor recreational activities in which 20% or more of the population 16 or older in the South participate, 1994-95.	411
2. Outdoor recreational activities in which less than 20% of the population 16 or older in the South participate, 1994-95.	411
3. Expenditures by state resident participants in the South for wildlife-related recreation, 1996. (Population 16 years old and older: expenditures in thousands of dollars.)	412
4. Percentages in the South age 16 or older participating in wildlife viewing and birdwatching by race, gender, and age, 1994-95.	413
5. Percentages in the South age 16 or older participating in wildlife viewing and birdwatching by education and income, 1994-95.	413
6. Percentage in the South age 16 or older participating in wildlife viewing and birdwatching by household characteristic, 1994-95.	413
7. Percentages in the South age 16 or older participating in wildlife viewing and birdwatching by employment status, 1994-95.	414
8. Percentage of wildlife viewers and birdwatchers in the South age 16 or older by other outdoor recreation activities in which they participate, 1994-95.	414
9. Percentage and millions of participants and average days of participation per year in hunting activities in the South, 1994-95.	414
10. Percentages of persons 16 years or older nationally and in the South participating in hunting by race, gender, and age, 1994-95.	415
11. Percentages of hunters 16 years or older nationally and in the South by education and income, 1994-95.	415
12. Percentages of household nationally and the South having at least one member who hunts by household characteristic, 1994-95.	415
13. Percentage of hunters 16 years or older nationally and in the South by employment status, 1994-95.	416
14. Percentages of hunters nationally and in the South participating in other outdoor recreation activities, 1994-95.	416
