HOW TO MEASURE YOUR CHILD'S FEET:

- Check that your printer is set to 100% printing scale, otherwise the sizing will not be accurate.
- Print out the sizing chart.
Tip: Before measuring, check the control box on the printed page to ensure the scale is correct.
- Place the chart on the floor (a hard surface is best), so that the guide line on the chart is against the wall.
- Ask your child to stand on the printed paper. Measure one foot at a time.
- Check that the foot is on the heel line.
- Ensure the foot and toes are sitting straight on the paper.
- Mark on the paper the point of the longest toe.
- Measure both feet as one foot may be larger than the other. Always choose the largest foot size for purchasing.

**BEFORE MEASURING,
CHECK THAT THIS BOX
IS THE SAME SIZE AS A
CREDIT CARD. THIS WILL
ENSURE THAT THE SCALE
IS CORRECT.**
