

Product information

The CLA650 is a guitar cable constructed using the MC205 cable and fitted with one straight mono jack connector and one angled male mono jack connector. The 26 AWG (0.12 mm²) thin & dense stranded bare copper conductors are surrounded by a high coverage bare copper spiral shielding. The durable shielding gives an excellent protection against interference of all kinds, such as electromagnetic fields caused by dimmers, motors or power cables. The flexible jacket made of PVC and is easy to handle. It comes in lengths of 1,5 meters to 5 meters, providing solutions for all applications.

Highlights

- Flexible PVC jacket
- 26 AWG thin and dense stranded conductors
- 6.0 mm (Ø) outer diameter
- Oxygen free copper
- Braided shielding

Components

- CableType: MC205 - Microphone Cable
