

Junior Change Table with Hoist Access, Padded Side Rails & Body Strap

The LynX Junior Change Table has been specifically designed for schools accommodating students with special needs.

The electric Hi-Lo table has a low minimum height of 450mm allowing for wheelchair transfers with little assistance reducing back strain and injury on the caregiver.

Designed to work well in a school environment the LynX Junior Change Table comes standard with independently lockable castors and padded safety side rails allowing easy maneuverability when moving the student from room to room or in an emergency.

Shown with LynX Base configured for Hoist Access
