GILDED AGE - MENS COLLECTION

N^o 32

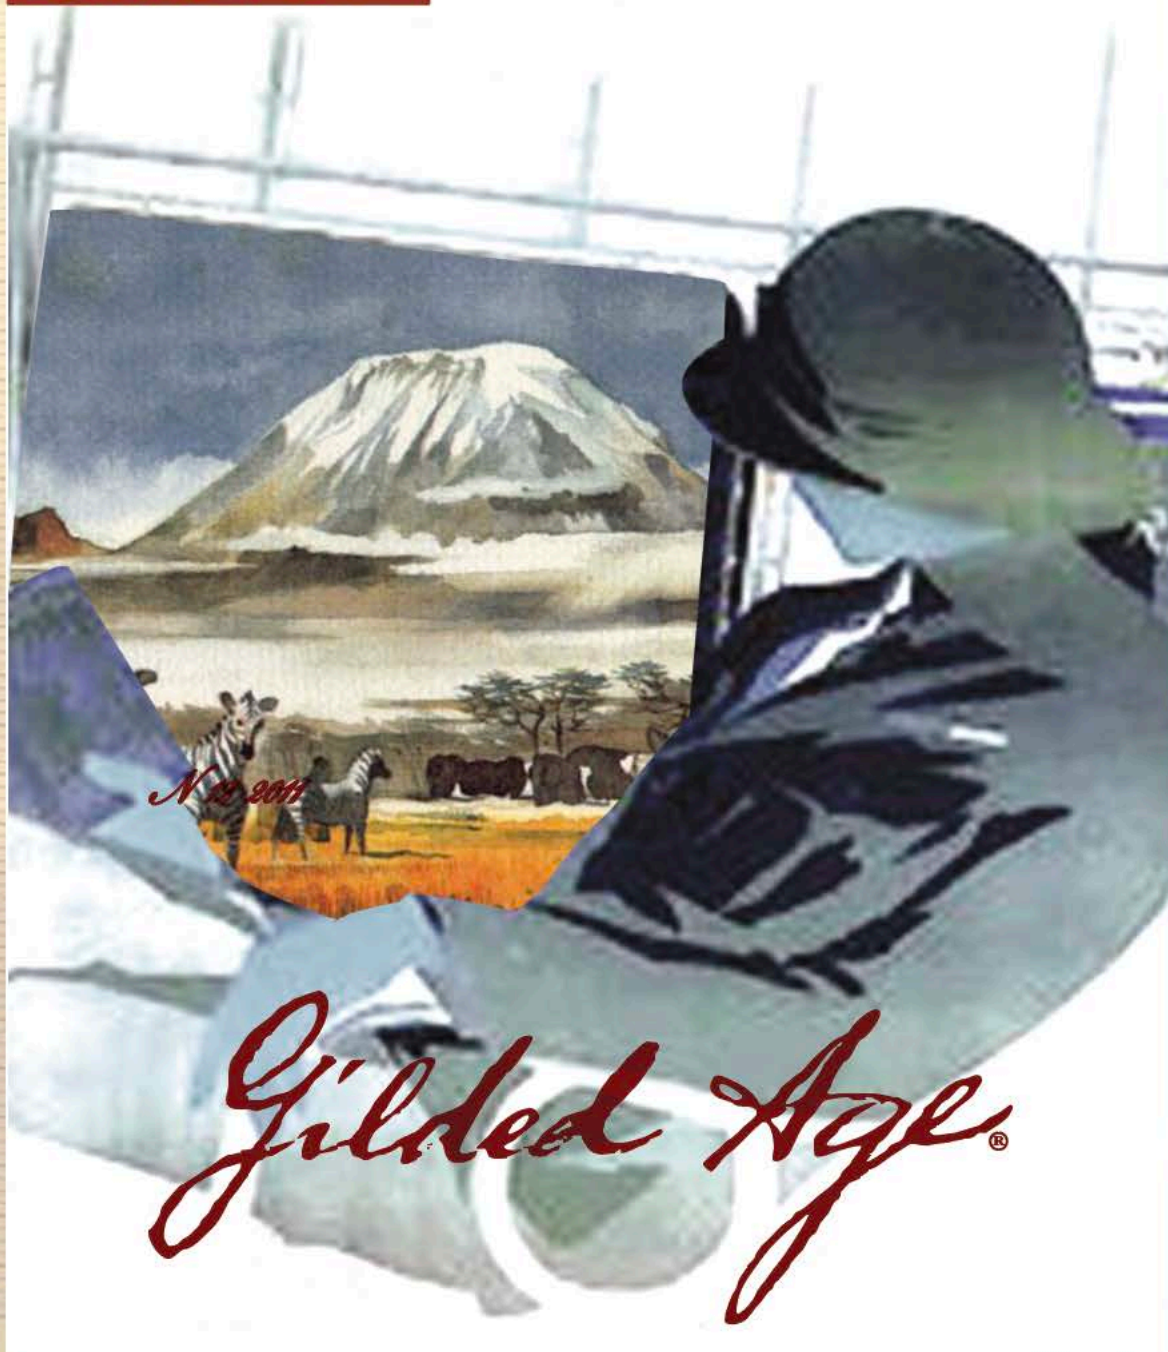

SEASON

... O universal lights
Most glorious! ye that lead
the Gliding year along the sky,
Liber and Ceres mild,
Within a long recess
there lies a bay:
An island shades it
from the rolling sea,
And forms a port secure
for ships to hide,

Roman Poet Virgil
Aeneid - 21 BC

SPRING 2022

AS FAR AS IT IS POSSIBLE TO GO

Thus the Spring 2022 collection is inspired by
the incredible, daring adventurous,
the first night ride to Serengeti, the first walk
in the rain through Bangkok streets,
the first landing in Honolulu Bay
with the sun rays glossing over golden scape.
The first landing at some remote south Pacific Isle,
inhaling fresh and warm tropical air.

In order for the simple pleasures of a quick escape
& getaway to become unforgettable experience, we have
created some great looking cloths whose "ancestors"
have trampled through the hot air of distant continents
and soaked up the sun across distant oceans.

We gave our shirts button-flapped pockets, inside sleeve
tabs to hold rolled-up sleeves, super soft cottons & linens
sourced from the Southern Seas. As for the colors,
debating the respective advantages of fatigue and khakis
would lead to a very long night...

For Spring 2022 we included long & short, slim and straight,
and yes...wide leg dungarees that (to be perfectly honest)
cuts a rather handsome silhouette. A range of summer
weight jackets & blazers as well as super soft
& light-as-air linen sweaters,
so soothing against a chilly night's ocean breeze that even
Hemingway wouldn't be able to resist.

Gilded Age, Spring 2022

Originally styled in ... who knows when... probably in some mine alongside Russian River, and worn by a miner, a gentleman, and a traveler alike for ages. Crafted from first-quality matched sheep-hide to Gilded Age specks & 2022 upgraded design accompanied with the zipper. Every detail from the 1930's ancestors is here: front pleats, lower chest pockets, shank buttons, side entry pockets. To stay true to its inspiration we've EVEN added one final dimension to take it all the way - a few years of "wear" to the leather.

Both garments originally designed by uncle Sam's tailors, who gave to the world a few good ideas of their own. Fatigue pants are the best of both worlds - a pair of higher rise straight leg fit military pants made for non-military everyday wear. Ours comes in a stretch spring 98/2 cotton twill - lightweight, easy to pack, easy to care for, good looking, rough, tough, and durable. Pr-washed for slightly broken in look.

Here is a confession: this may be our best version of Gilded Age jackets this spring. A simple, lightweight sheepskin jacket doesn't get much thought until spring warms enough to make the rest of your winter outerwear arsenal overkill. You are looking into your jackets closet and debating whether to take what is probably too-much jacket, or going without. And regardless of which decision you make, you are likely to be wrong. UNLESS, of course, you have a jacket like our Correspondent Leather jacket.

EASY LIVIN'

"Beach" in English means a land form along the coast of an ocean, sea, lake, or river that usually consists of loose particles, such as sand, gravel, or pebbles... Beach also means pleasure, relaxation, comfort, and all good things. And that was an inspiration for our very own Beach Pant. The relaxed fit perfectly accompanies relaxed strolls; the airy linen weave provides comforting protection from midday sun, or evening cool. With elastic and draw-cord waistband, slash side pockets, and patch back pockets our Beach Pant strikes another victory for form and function without ignoring life's little comforts.

Time was when a man didn't just roll up his sleeves to do an honest day's work, he also removed his collar. While Uncle Sam's deployment of arms sometimes raises eyebrows, his legs have always remained discretely out of limelights, irreproachably clad in crisp khakis. Each pair is made in fine Italian stretch cotton twill- for pants, like with the armies, look their best at ease.

100% LINENS

Linen, the product of the flax plant, has been known as softest, strongest, lightest, drapiest, coolest, most absorbent, quick drying fiber on earth. It's no secret this 5000 Years-old Performance Fabric, used since the days of Queen Hatshepsut and King Tut (in addition to cotton), is Gilded Age fabric of choice for any spring/summer season. Fact is, linen may be the most performance-oriented natural fabric on earth. It is such a good conductor of heat, it actually pulls heat away from the body, it repels dirt, naturally resistant to microbial attacks, and when it gets wet, it gets stronger. Here... We put it to use in a stunning array of great classics patterns appropriate for any time, anywhere from 70th parallel South. We guarantee you'll be sweating less, while keeping as cool as Italian ice gelato.

TRADE WINDS

There comes the time when you have to leave the beach, board your single engine Zodiac and head for your sail boat moored beyond the point of the wave breaks. Then you head out of harbor and sail with the trade winds. On the way to next port you may need windbreaker jacket, or a light linen blend sweater over your T-shirt. What makes our 4 Winds Windbreaker different from the throng is our usual attention to details and functionality. In addition to a great soft performance fabric, we include useful design elements: gussets underarms, articulated elbows, retractable hood, hand warmer pockets with storm flaps to keep the rain out, adjustable elasticized cuffs, storm jacket closure, etc.. This & more help you sail in comfort to the next harbor.

SPRING 2022

The Romans thought the ferocious heat in July when the Dog Star - Sirius - rises at the same time as the sun, was caused by the combined forces of these two stars. Thus the expression: the Dog Days of Summer. Nowadays we stand less on this astrological ceremony, preferring to noddle to the mercury, and spend the afternoons & evenings listening to the bracing clicks of ice on ice.
