GROWING SUCCESS

MORE OPTIONS. MORE FLEXIBILITY. ONE COMPLETE SOLUTION.

2023 COMPLETE PACKAGE Program

The Complete Package Program was created last season knowing plants in branded PROVEN WINNERS® pots sell better. That's because when gardeners see plants in these authentic white containers with the recognizable variety tags, they're confident knowing they're buying the best plants on the market. And this year's updated program has two basic components:

1. THE PROVEN WINNERS® BRANDED CONTAINER:

- » Required for single pot production
- » Optional for recipes or landscape production
- » Growers choose size of containers needed and quantities to order
- » **NEW** Containers are NOT added automatically to orders
- » **NEW** Containers may be purchased at any time, to make ordering easier
- » **NEW** Containers may be purchased in quantities greater than the number of liners purchased, so growers can gain volume pricing discounts and more easily manage inventory
- » Carry trays are suggested and encouraged, but not required

2. THE PROVEN WINNERS® TAG:

- » Required for all types of production
 - » Pleasant View Garden's Go & Grow™ Hanging Basket and Fast(est) Finish kits automatically ship with Recipe-Specific Container Garden Tags
 - » Liner trays automatically ship with stake tags for Single Pot production
 - » **NEW** FlexTag Option
- Growers now may choose the quantities of tags based on their planting ratios, providing the flexibility to reduce the number of bundled tags received with liner orders

ONE VERY EASY ORDERING PROCESS.

To better align with growers' production needs, we've simplified the Complete Package Program for 2023 and added more flexibility. Just follow the three-step process below and you'll be on your way to fewer tags and more success in no time.

STEP 1

DETERMINE YOUR PLANT NEEDS

- » How many PROVEN WINNERS® liners will you need for a single pot, recipes, and landscape production?

STEP 2

SELECT SIZE AND QUANTITY OF CONTAINERS

- » Select the size and quantity of branded containers that you need. Branded containers are optional for recipes and landscape use.

STEP 3

CUSTOMIZE THE TAG QUANTITIES

- » Do you grow recipe combinations or plant multiple liners in a container and want to receive fewer tags?
