

If You Ordered a Raw Brass Fixture

All raw brass will age/darken over time. If you wish to keep your fixture “like new” you can clean it periodically with Brasso. When installing your fixture, **WE DO RECOMMEND WEARING GLOVES**. The raw brass will tarnish if it comes in contact with the oils on your skin.

Cord and Plug - Installation Instructions

	<p>Mount the backplate to the wall using the provided self anchoring screws. Be mindful of the side screw positioning when mounting.</p>
	<p>Place the lamp canopy over the mounting plate and line up the side screw holes. Starting at the top of the canopy partially screw in the brass screws.</p>
	<p>Turn the screws until they are flush with the side of the canopy.</p>
 <p>2 Set Screws</p>	<p>Using the provided allen wrench, loosen the nylon tipped set screw on the slip ring to adjust for height, and loosen the nylon tipped set screw on the bracket for left and right adjustment. *Don't over-tighten the set screws* Tighten the set screws until they are snug and the fixture is secure, over-tightening will ruin the nylon tip on the set screw.</p>
