

If You Ordered a Raw Brass Fixture

All raw brass will age/darken over time. If you wish to keep your fixture “like new” you can clean it periodically with Brasso. When installing your fixture, **WE DO RECOMMEND WEARING GLOVES**. The raw brass will tarnish if it comes in contact with the oils on your skin. We recommend a licensed electrician install all fixtures. **TURN OFF ALL POWER AND REMOVE OLD FIXTURE BEFORE INSTALLING**

Side Mount Canopy - Installation Instructions

	<ol style="list-style-type: none"> 1. Check Side Hole location on the light fixture Canopy. Make sure the mounting plate is mounted so that the fixture will be in the desired position. 2. Line up the 2 of the A mounting slots with your electrical box. Mount the plate to the electrical box using the provided 1” screws. Level the mounting plate before fully tightening. 3. Attach the Copper ground wire to the ground screw and tighten the screw. 4. Attach the black and white wires on the fixture to the corresponding wires in the electrical box.
	<p>Place the lamp canopy over the mounting plate and line up the side screw holes. Starting at the top of the canopy partially screw in the screws.</p>
	<p>Turn the screws until they are flush with the side of the canopy.</p>
