

**If You Ordered a Raw Brass Fixture**

All raw brass will age/darken over time. If you wish to keep your fixture “like new” you can clean it periodically with Brasso. When installing your fixture, **WE DO RECOMMEND WEARING GLOVES.**

**Installation Instructions**

	<p>1. Use pliers(not included) to remove any unwanted chain length.          2. Slip the cord and groundwire through the slip ring, the canopy, and then the hook as shown in pic.          *The allen wrench in the canopy kit is not needed for this install and can be ignored.</p>
	<p>3. Secure the threaded nipple into the crossbar, ground screw pointing out, using the star washer and then one of the nuts. Screw the second nut halfway down the nipple.</p>
	<p>4. Send the cord and ground wire through the threaded nipple.          5. Attach the crossbar to the junction box using the provided 1” screws          6. Attach the ground wires (bare copper or green) to the ground screw.          7. Connect wires - if you do not know how to do this, please consult a certified electrician.          8. Screw hook in until it rests tightly against the nut.</p>
	<p>9. Slide the canopy up around the hook and against the ceiling.</p>
	<p>10. Tighten the slip ring on the threading of the hook to hold the canopy in place. Re-adjust the hook if necessary.          11. Clip the chain onto the hook.</p>
