

If You Ordered a Raw Brass Fixture

All raw brass will age/darken over time. If you wish to keep your fixture "like new" you can clean it periodically with Brasso. When installing the globes, **WE DO RECOMMEND WEARING GLOVES**. The raw brass will tarnish if it comes in contact with the oils on your skin.

Metal Dome Installation Instructions

 A close-up photograph of a hand using a 2mm allen wrench to turn a small metal ring (slip collar) on a black metal rod. The rod is attached to a black dome-shaped shade.	<p>Using the 2mm allen wrench provided, loosen the slip collar above the metal dome shade.</p>
 A close-up photograph of the black dome shade being lifted upwards, revealing a metal shade holder and a white light bulb already inserted into it.	<p>Move the dome shade to expose the shade holder underneath. Install your light bulb.</p>
 A close-up photograph of a hand placing a white glass globe onto the metal shade holder. The globe is held in place by three small thumb screws on the holder.	<p>Place the glass shade on the holder and secure it using the three thumb screws on the shade holder.</p>
 A close-up photograph of a hand wearing a black glove using a 2mm allen wrench to tighten the slip collar, securing the glass globe in place.	<p>Return the dome shade and secure it by tightening the slip collar with the 2mm allen wrench.</p>
