

If You Ordered a Raw Brass Fixture

All raw brass will age/darken over time. If you wish to keep your fixture “like new” you can clean it periodically with Brasso. When installing your fixture, **WE DO RECOMMEND WEARING GLOVES**. The raw brass will tarnish if it comes in contact with the oils on your skin.

Installation Instructions

	<p>Mount the 3 hole bracket to the wall with the widest part up. Use the provided screws and anchors.</p>
	<p>Place the light against the wall with the light’s bracket slightly above the wall mounted bracket.</p>
	<p>Slide the lamp downward so that the brackets interlock. Push down on the light’s canopy to lock in place.</p>
	<p>Adjust the clear sliders at the bottom of the shade to alter the shape. Make sure to adjust both sides evenly. Hide any extra string inside the shade or trim with scissors. (If you trim, make sure to tie a knot just below the slider.)</p>
	<p>Adjust the bulb height by loosening the set screw on top of the shade. Lightly tighten when the desired position is reached.</p>
