

**If You Ordered a Raw Brass Fixture**

All raw brass will age/darken over time. If you wish to keep your fixture “like new” you can clean it periodically with Brasso. When installing your fixture, **WE DO RECOMMEND WEARING GLOVES**. The raw brass will tarnish if it comes in contact with the oils on your skin.

**Installation Instructions**

	<p><b>1 After turning off the power at the electrical box, and double checking this with a multimeter, connect the round universal crossbar to the junction box so the rectangular bar is horizontal.</b></p>
	<p><b>2 Connect the black and white wires of the fixture to the corresponding black and white wires in the box. Connect the ground cords (bare copper or green wire) to the green ground screw on the crossbar.</b></p>
	<p><b>3 After the wiring has been tucked away inside the junction box, place the canopy over the crossbar.</b></p>
	<p><b>4 Line up the side holes of the canopy with the screw holes in the crossbar. Secure the canopy using the provided screws.</b></p>
	<p><b>If you customized your light fixture with a cord &amp; plug:</b></p> <ol style="list-style-type: none"> <li><b>1) Attach bracket to the wall using the two black multipurpose screws.</b></li> <li><b>2) Attach the fixture to the bracket using the two shorter screws as in step 4.</b></li> </ol>
