OTHER ACCESSORIES FOR WATCH MOVEMENT INSTALLATIONS

Dial Dots

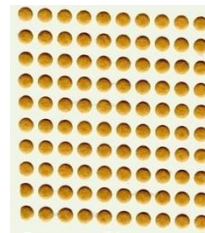

Dial Dots are used when doing movement replacement. When replacing an older discontinued movement with a new movement, the dial feet may not line up. This affords you the ability to cut the existing dial feet off the old dial, use dial dots (2 sided tape), and stick the old dial to the new movement. Available in 3 different formats.

The assortment contains a total of 58 different diameters, supplied in individual envelopes, with sizes and re-order numbers indicated. Refills are available.

CASING RINGS

Retrofit Watch Case Filler
order # 67-5375 * \$ 37.40 kit

Newall Retro-Fit is a two-part room temperature silicone molding putty that will fill watch cases with 0% shrinkage. Newall Retro-Fit is safe, non-hazardous and non-toxic. No unpleasant fumes or odors. Newall Retro-Fit is easy to use – merely mix equal parts of part A and part B by hand. There is no need to measure precisely or vacuum in order to achieve optimum results. Working time: 1 to 2 minutes. Cure time: approximately 15 minutes. **Important Notice --- Do Not Over-Mix!** Mix quickly – a uniform color is not necessary.

- Over-mixing will result in non-cure!!
- The total insertion process must be complete within the 2 minutes working time.
- Rubber can be worked beyond 2 minutes, but weak or defective fillers will result.
- Apply as much pressure as possible for best results.
- Rubber exposed to cold during shipping or storage will remain cold for extended periods and should be warmed to room temperature before use.

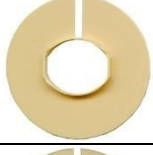

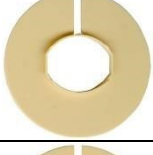

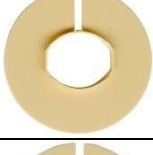

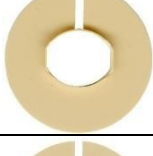

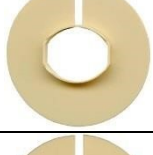

Assortment of 50 Casing Rings
order # 66-3500 * \$ 41.60 asst

This assortment contains 25 different sizes of casing rings, 2 each for a total of 50 pieces. The casing rings in this assortment are suited for ETA, RL, Miyota and Epson movements. Refills are available.

Individual sizes of Casing Rings - sold individually
