The Fall & Winter 2020 collection includes our new FannySåk (pg 18) - an ultralight, waterproof waist bag made from rip-stop nylon coated with TPU.

We've also added a new take on DuffelSåk (pg 16), which we call the Moto Edition; made from TPU-coated nylon it features a new square-shaped design and extra D-rings for additional strap down points.

We are also introducing some new variations: By popular demand, we have added a "Palms" version of BackSåk (pg 6) in both 25 and 35 liter sizes.

ChillSåk Flip (pg 10) has 2 new color options: "Olive Green" and "Pacific Blue".

DrySåk (pg 13) has new "Sugar Skulls", "Tie Dye" and "Waves" patterns available. Also a 5 liter size has been added to the lineup, which is available in all colors and patterns.

Last but not least, GymSåk (pg 20) is getting new patterns: with "Palms", "Sugar Skulls", "Tie Dye" and "Waves" versions.
